Getting Started - Infineon Developer Center for BTN7030-1EPA

Infineon Developer Center

Infineon tools in one place
The Infineon Toolbox integrates helpful software for our customers. For product development please use the **Config Wizard for LED**.
Infineon Toolbox can be downloaded here: **Infineon Developer Center**.

Power Dissipation Tool
The Power Dissipation Tool is an interface that helps you estimate the power dissipation and the temperature of the chip.
The Power Dissipation Tool can be installed via the **Infineon Developer Center**.
