

Driving decarbonization and digitalization. Together.

Working Student: External Wafer Manufacturing Sourcing (f/m/div)

Job description

As a global semiconductor leader in power systems and IoT, we enable game-changing solutions for green and efficient energy, clean and safe mobility, as well as smart and secure IoT. That's why you probably use our products every day: smartphone, charger, electric toothbrush, coffee machine, refrigerator, remote control and much more. We are looking forward to your application!

- **Expand your horizons:** Benchmark commercial performance between different External Wafer Manufacturing Business (EWM) partners
- **Keep the overview:** Evaluate monthly spending and saving performance for whole EWM department. Closely align the outcome with the internal account representatives and support to present the end result to EWM management
- **Reliable work:** Closely work together with the finance department and your EWM colleagues for reporting and benchmark activities

Profile

- **Study field:** You are studying Informatics, Mathematics, Physics, Economics, Supply Chain Management or any other related fields
- **Skills:** You have very solid skills in MS Excel and VBA. Experience in Tableau and DataQuery is a plus
- **Way of working:** You are a passionate and motivated team player who is also able to work independently with good communication and analytical skills
- **Language skills:** You are fluently communicating in English

Please attach the following documents to your application:

- CV in English
- Certificate of enrollment at university
- Latest grades transcript (not older than 6 months)
- High school report

Important information:

- **Working part-time:** The focus is on studies. Therefore, working student is possible during the lecture period with a maximum of 20 hours per week.
- **Proper students (according to the German law) are welcome:** You must be enrolled, and the examination results or modules of your studies must not have

At a glance

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

The **External Wafer Manufacturing** organization (EWM) is responsible for end-to-end business and supplier relationship management with foundry partners. To ensure a resilient supply and timely technologies enablement, the organization unites commercial, technological and operational functions under one roof and oversees and steers all strategic and operational activities with foundries and test houses.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
