

Driving decarbonization and digitalization. Together.

Engineer Information Technology - Electronic Archiving Services (Contract)

Job description

In your new role you will:

- Carry out programming tasks for eArchive including Change Requests or projects by following development guidelines and delivering the solution within scope, budget, and timeline.
- Perform root cause investigation and provide a solution.
- Provide technical consultation (e.g. application design/development, effort estimation) based on business user requirements and best fit for system operations.
- Perform quality assurance activities (e.g. prepare test cases, unit testing, code review).
- Provide ongoing consulting to business users whenever necessary.
- Capture and deliver documented business requirements and business process flow to developers.
- Communicate to business users to solve issues throughout the development process with a good understanding of the business user's needs and meet their expectations.
- Participate in projects whenever necessary.

Profile

You are best equipped for this task if you have:

- Bachelor Degree's in Computer Science / Information Technology or any equivalent course.
- Intermediate programming like Java, VB script, and PowerShell script.
- Intermediate Web-based programming including ASP.NET, C#, JSP, HTML, XML.
- Knowledge of project management and requirements gathering.
- Strong communication skills.
- Strong analytical and problem-solving skills.
- Ability to work in a team, fast learner, self-driven.

Note: 1-year renewable contract under 3rd party payroll partner and entitled to benefits according to the partner company.

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant 's experience and skills.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
