## International Graduate Program - Trainee IT OneSAP PPM

### Job description

Joining the IGP will get you the full insight into Infineon: over the course of 18 months you will have at least three different assignments – one of them abroad. You will meet the global IGP community in global, regional and virtual conferences. You will get feedback after each assignment, a mentor who gives career advice. And if that isn't enough, you will have permanent employee status from the start.

As an IGP Trainee within our Information Technology (IT) department you will explore a fantastic journey within our organization. You will collaborate with your colleagues from IT, the business and external partners. You will learn how globally organized teams interact and actively contribute to design, build and run state-of-the-art IT solutions in an agile environment.

Your program consists of the following elements:

- Get acquainted with the general topics and key aspects of the department where the assignment takes place.
- Develop a broader technical experience with the objective to recognize and comprehend the interactions business.
- Analyze and structure given business tasks (e.g. processes/structures, technical optimization) and provide solution proposals (e.g. lean and efficient process flows).
- Co-operate in the daily business and collect practical experience.
- Contribute by personal input, e.g. provide own suggestions, ideas, new ways of approaches.
- Support the business in creating concepts and problem solving proposals and align this with the responsible interfaces.
- Responsible for defined (sub-)projects and tasks.
- Apply existing methods and competencies according the respective tasks and develop these further.
- Learn and apply (lean-)management and project management methods during (global) IGP-Projects.
- Develop own personal network within Infineon.
- Take an active role in the IGP network by attending program events as well as specific IGP trainings.
- Involve in the document accomplishments and make formal presentation to project team and other IGPs at each project completion.

# Profile

You make the impossible possible. You don't wait for the silver platter. You love change (which is guaranteed in the semiconductor industry). You are pragmatic and analytic (we need both at Infineon). Standing still is not your thing and you find inspiration in working on the big picture with your colleagues.

Plus, you fulfill the following qualifications:

- A degree in Information Technology / Computer Science or any equivalent course
- Demonstrated your leadership skills, for example at university, during internships or during other extracurricular activities
- You are familiar with programming and can use standard back-office software like Excel, Word and PowerPoint.
- Already gained first international experience during your academic program through internships or a semester abroad (minimum 3 months)
- Fluent in English with good communication and presentation skills (German as a plus)

And you fully agree to these statements:

- I am an ambitious and open-minded person who loves to get to know new people and learn about new topics
- When I think about moving to another country for at least three months, I want to start packing my bags
- I like to work in teams that are very diverse and in which everyone speaks English
- I can't wait to present a concept to team and managers – and I don't mind doing it in English
- My friends describe me as “highly independent and self-motivated team player

If this is you, then we want to make it easy for you to apply: All we need is your CV and your relevant certificates, such as your final university degree or your most recent university transcripts. Tell us more about your motivation for applying in a short cover letter. Convince us with your personality, special skills and experiences.

## Why Us

### **Driving decarbonization and digitalization. Together.**

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

### **We are on a journey to create the best Infineon for everyone.**

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
