

Driving decarbonization and digitalization. Together.

OneSAP - Staff Analyst Intercompany Shipment (SAP SD / LE / TM)

Job description

The SAP Consultant - Analyst would involve analyzing forthcoming business processes, configuring upcoming SAP software releases, and offering expertise in implementing and customizing upcoming SAP solutions. The role will require close collaboration with stakeholders to gather future requirements, design solutions, and ensure seamless integration of SAP modules to meet evolving business needs, all while upholding system integrity and adhering to best practices.

In your new role you will:

- Act as an intercompany shipment/shipment solutions track lead within SAP rollout projects for North America sites, such as Tijuana, Austin, Mesa.
- Gather and consolidate requirements from the business stakeholders and consult them on how to realize their need.
- Coordinate technical realization, propose solution design, perform system prototyping and configuration, perform integration tests, user acceptance tests and drive go-live activities together with the users.
- Manage external service providers to enable smooth transition from project to operations and stable knowledge-transfer, monitor and support stable IT operations.
- Handle operational change requests and ensure that proposed solutions do not impact existing system stability.
- Look for innovative solutions to drive improvements on application level.
- Share your knowledge and best-practices with other project team members.

Profile

You are best equipped for this task if you have:

- A degree in Business Informatics, Informatics, Computer Science, Supply Chain Management or similar.
- At least 3-5 years professional experience in the SAP environment within the IT department or as an SAP consultant.
- Knowledge of SAP S4/HANA and SAP ERP is highly preferred, hands-on SAP Configuration experience is a must.

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant 's experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
