

Driving decarbonization and digitalization. Together.

Senior Manager Regional Procurement

Job description

Regionally responsible for a part area of one Category including a managed purchasing volume with two-digit million € annually.

In your new role you will:

Regionally responsible for a part area of one Category including a managed purchasing volume with two-digit million € annually.

Contribution to procurement strategy

- Drive **strategy** development for part area of Category as a regional buyer. Contribute to preparation and take regional **lead for the execution** of the Category Strategy as regional buyer
- Align innovative commercial models that base on a holistic **Total-Cost-of-Ownership** view with Global CM
- Manage to achieve **negotiation** and concept savings targets and other procurement KPIs
- Contribute to **operating profit** and cash flow targets
- **Collaborate** with Global, Lead, Local Buyer throughout the year
- Represent **procurement strategy** to key stakeholders across Infineon sites
- As a Regional Buyer you will **balance both global and local** needs at Infineon.
- Responsible for sourcing process, commercial negotiations and finalization of contracts.
- Ensure **optimal balance of cost** / functionality from initial demand request onwards
- Align the **communication and reporting** to C-Level Management for Big Value Projects with Global CM
- Acts as an orchestrator between the different requestors to align needs across Infineon and bundle demand wherever possible
- Drive the development of the specification to be sourced in close collaboration with the respective functional business organizations.
- Be open for innovative negotiation methods to bring the commercial discussion to a success and design the contracts together with stakeholders across Infineon
- Collaborate with Legal: strengthen the reuse, take ownership of guidelines to leverage contractual benefits and optimized processes in close alignment with the Legal team
- Monitor the market and drive the continuous improvement of Supply in the portfolio to better address business / market needs and create additional value
