

Driving decarbonization and digitalization. Together.

Specialist Logistics

Job description

In your new role in Global Logistics INTEgrated Services (GLINTS), you will:

- Manage logistics service request tickets from Customer Logistics Management team.
- Work closely with other logistics function counterparts to fulfil service requests.
- Generate and analyse reports for tracking of logistics requests fulfilment KPIs.
- Support warehouse, shipping and quality operations whenever required.
- Ensure high level of customer satisfaction using quality customerservice skills.
- Maintain and update GLINTS knowledge management page and user guide.
- Engage requestors in conducting training and knowledge sharing.
- Support the Call Centre and Logistics process improvement project.

Profile

You are best equipped for this task if you have:

- Bachelor's Degree in International Business, Logistics & Supply Chain Management, Business Administration or similar field.
- Fresh graduate is encouraged to apply.
- Intermediate knowledge in Microsoft Office tools.
- Knowledge of SAP hands-on experience is preferred.
- Experience with using a workflow management or service desk tool will be an advantage.
- Strong communication and problem-solving skill.
- Ability to work independently under minimum supervision and time pressure.
- Willing to work on normal and afternoon shift.

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications
