

Driving decarbonization and digitalization. Together.

Internship: Component Verification (f/m/div)

Job description

Are you interested in the semiconductor industry and would like to learn more from our experienced verification engineers? Semiconductors are a key element in the automotive industry. Infineon Automotive (ATV) is responsible for shaping the future of mobility. We make cars cleaner, safer and smarter. The development center in Graz manages contactless, security and sensor technologies. To get the job done we need passionate people, knowledge and an innovation mindset. You are currently studying Electrical Engineering, Software/Computer Engineering, Biomedical Engineering, Physics or a related subject? Curious? Do not hesitate and apply now!

In your new role you will:

- Actively support the **lab verification** of the latest **Infineon Radarsystems**
- Be part of the **Matlab development** of new and existing measurement routines, under the guidance of experienced verification engineers
- Assist with the **design** and **assembly** of new **verification boards**
- Execute targeted **verification tasks**, evaluate the results and produce **measurement reports**
- Contribute to the definition and setup of **test benches**
- Contribute to test **automation methodologies** and their **implementation**

Further Information

Type of employment: Temporary / Part-time (flexible working hours from Monday to Friday between 6 a.m. and 7 p.m.)

Duration: min. 6 months

Profile

You successfully meet the requirements, if you are a motivated and committed student from the field of **Electrical Engineering, Software/Computer Engineering, Biomedical Engineering, Physics** or similar. You are best equipped for this task if you additionally offer:

- Strong interest in **hardware** and **product verification**
- Good **analytical skills** and **problem-solving abilities**
- An **open mindset** with a focus on **quality**
- **Lab experience** and **soldering skills**
- **PCB design** and **programming** skills in **MATLAB** and **Python** for verification purposes
- The ability to be a good **team player** and the willingness to work in an **international team**

At a glance

Location: **Graz (Austria)**
Job ID: **HRC0753314**
Start date: **Jul 01, 2024**
Entry level: **0-1 year**
Type: **Part time**
Contract: **Temporary**

Lisa Derhaschnig
Recruiter

- Good communication skills in **English** and **German**

This position is subject to the collective agreement for workers and employees in the electrical and electronics industry (full-time), employment group B for bachelor students, employment group D for master students (<https://www.feei.at/wp-content/uploads/2023/05/minimum-salaries-white-collar-workers-2024.pdf>).

Please attach the following documents (German or English) to your application:

- Motivation letter
- CV
- Certificate of matriculation at a university
- Latest Transcript of records (not older than 6 months)
- Highest completed educational certificate (Matura certificate for Bachelor students, Bachelor certificate for Master students)
- Reference letter (optional)

Benefits

- **Graz:** Coaching, mentoring networking possibilities; Wide range of training offers & planning of career development; International assignments; Different career paths: Project Management, Technical Ladder, Management & Individual Contributor; Flexible working conditions; Home office options; Part-time work possible (also during parental leave); Sabbatical; On-site social counselling and works doctor; Health promotion programs; Discounted lunch possibilities; Private insurance offers; Corporate pension benefits; Flexible transition into retirement; Performance bonus; Accessibility, access for wheelchairs

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

– Automotive (ATV) shapes the future of mobility with micro-electronics enabling clean, safe and smart cars –

Semiconductors are essential to realize key trends like eMobility, automated driving and secure, connected cars. Infineon ATV is the #1 semiconductor partner in the fast-changing automotive world, based on our system knowledge coupled with our passion for innovation and quality. We are a key driver in the ever-advancing pace of digitalization in the automotive industry.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
