

Driving decarbonization and digitalization. Together.

Cyber & Information Security Auditor (f/m/div)

Job description

Are you passionate about auditing and technology? Do you enjoy getting to the root of problems and providing solutions? Infineon's Cyber team is hiring, and we want you to be a part of it. Infineon's Cyber team spans across several countries around the world and covers Cyber Governance & Risk, Consulting, Security Monitoring, Incident Response & Digital Forensics and OT Security functions globally. Take the opportunity to apply and become part of our Verification team as a Cyber & Information Security Auditor in Porto!

As a Cyber & Information Security Auditor, you will be part of the Verification team within the Governance & Risk function and be responsible for the verification of our Cyber & Information Security Management System as well as for driving the Verification Automation to enable the continuous and secure growth of Infineon's business.

In your new role you will:

- Be responsible for the **regular verification** of the completeness and effectiveness of **Infineon's Cyber & Information Security Management System** (2nd line of defense) - with a focus on the regions **Europe and Americas**;
- **Ensure Infineon's continuous compliance** with legal, contractual, and internal security requirements as well as **certifiable Security Standards** (e.g. ISO27001, TISAX, Common Criteria, GSMA, etc.);
- **Perform internal control / audit activities** and **facilitate external audits** in order to obtain new or uphold already granted Security Certifications;
- Support the **maintenance and improvement of the Verification function** and related processes as well as the **Cyber & Information security control framework**;
- **Drive the verification automation** by supporting the implementation or development of a GRC application.

Profile

You have a hands-on approach to work and are able to take responsibility for your own area of expertise. You have a proactive and enthusiastic attitude and can establish a successful collaboration with people across different levels and functions of the organization. Moreover, you have excellent communication skills and enjoy sharing your knowledge and providing guidance to others.

You are best equipped for this position if you have:

- A degree in **Computer Science, Information Technology or an equivalent qualification** – ideally with a focus on Cyber / Information Security;
