Evaluation Board Startup Guide

Evaluation Board Startup Guide

Dear Customer,

your safety is our aim.

Our evaluation boards are functional tested by a test engineer and provided with a test report. In order to assist you in the commissioning of the platform, please follow the following points.

- Optical control
- Please follow the testreport distributed with the board

➔ If no defects appeared, start with your own tests.

➔ If you discover some question marks, contact our Global hotline service.
