### Kit Revision

To know if you are using the latest kit, look for the kit revision in the white sticker on the bottom left on the back side of the kit box. If the revision reads CY8CKIT-001C, then congratulations, you own the latest version. You can also check the silicon marketing part number on the processor module; the part number should be CY8C3866AXI-040. This kit is equipped with production PSoC 3 silicon.
