PSOC™ Control C1 Evaluation Kit (KIT-PSC1M3-EVK) release notes

About this document

Scope and purpose

Thank you for your interest in the PSOC™ Control C1 Evaluation Kit (KIT-PSC1M3-EVK). This document lists the kit contents, installation requirements, and associated kit documentation.

Intended audience

This document is intended for users of the PSOC™ Control C1 Evaluation Kit (KIT-PSC1M3-EVK). This board is intended to be used under laboratory conditions only.

1 Release contents

1.1 Kit contents

The PSOC™ Control C1 Evaluation Kit includes the following components:

1. PSOC™ Control C1 Evaluation Kit (KIT-PSC1M3-EVK)
2. USB -C to USB-A cable

2 Tool information

For more information related to the kit, see the PSOC™ Control C1 Evaluation Kit (KIT-PSC1M3-EVK) webpage.

2.1 Software and tools

To use the code examples included with this kit, install ModusToolbox™ v3.8 or later. This is available on the ModusToolbox™ software webpage. For more details, see the kit user guide.

Install SEGGER J-Link software version v9.40 or later, including the USB driver for the selected J-Link device.

2.2 Code examples and collaterals

The kit webpage contains both the documents and hardware files. Additionally, the code examples are available in the Infineon GitHub repository.

2.3 Installation

The kit user guide, available on the PSOC™ Control C1 Evaluation Kit (KIT-PSC1M3-EVK)webpage provides all the necessary software installation instructions.

2.4 Kit revision

This is the initial revision (Rev. **) of the PSOC™ Control C1 Evaluation Kit (KIT-PSC1M3-EVK).

2.5 Documentation

The following kit documents are available on the kit webpage:

- PSOC™ Control C1 Evaluation Kit (KIT-PSC1M3-EVK) user guide
- PSOC™ Control C1 Evaluation Kit (KIT-PSC1M3-EVK) release notes
- PSOC™ Control C1 Evaluation Kit (KIT-PSC1M3-EVK) quick start guide

2.6 Technical support

For assistance or product-related queries, contact Infineon Support or post your queries on the Infineon Developer Community platform.

2.7 Additional information

- For more information on the PSOC™ Control PSC1M3 MCU, including related documentation and software, see PSOC™ Control PSC1M3 webpage
- To know more about the functionality and releases of ModusToolbox™, see the ModusToolbox™ software webpage
- For a list of trainings on ModusToolbox™, see ModusToolbox™ software training

Important notice

Products which may also include samples and may be comprised of hardware or software or both ("Product(s)") are sold or provided and delivered by Infineon Technologies AG and its affiliates ("Infineon") subject to the terms and conditions of the frame supply contract or other written agreement(s) executed by a customer and Infineon or, in the absence of the foregoing, the applicable Sales Conditions of Infineon. General terms and conditions of a customer or deviations from applicable Sales Conditions of Infineon shall only be binding for Infineon if and to the extent Infineon has given its express written consent.

For the avoidance of doubt, Infineon disclaims all warranties of non-infringement of third-party rights and implied warranties such as warranties of fitness for a specific use/purpose or merchantability. Infineon shall not be responsible for any information with respect to samples, the application or customer's specific use of any Product or for any examples or typical values given in this document.

If this document is marked as 'Preliminary', 'Target', 'Draft' or 'Proposal', Infineon reserves the right to change all information given in this document at any time without notice. Subject to the development and release of a Product for series supply by Infineon, the technical specifications of the Product are set forth in the relevant datasheet provided by Infineon without such marking.

The data contained in this document is exclusively intended for technically qualified and skilled customer representatives. It is the responsibility of the customer to evaluate the suitability of the Product for the intended application and the customer's specific use and to verify all relevant technical data contained in this document in the intended application and the customer's specific use. The customer is responsible for properly designing, programming, and testing the functionality and safety of the intended application, as well as complying with any legal requirements related to its use.

Unless otherwise explicitly approved by Infineon, Products may not be used in any application where a failure of the Products or any consequences of the use thereof can reasonably be expected to result in personal injury.

However, the foregoing shall not prevent the customer from using any Product in such fields of use that Infineon has explicitly designed and sold it for, provided that the overall responsibility for the application lies with the customer. Infineon expressly reserves the right to use its content for commercial text and data mining (TDM) according to applicable laws, e.g. Section 44b of the German Copyright Act (UrhG). If the Product includes security features:

Because no computing device can be absolutely secure, and despite security measures implemented in the Product, Infineon does not guarantee that the Product will be free from intrusion, data theft or loss, or other breaches ("Security Breaches"), and Infineon shall have no liability arising out of any Security Breaches.

If this document includes or references software:

The software is owned by Infineon under the intellectual property laws and treaties of the United States, Germany, and other countries worldwide. All rights reserved. Therefore, you may use the software only as provided in the software license agreement accompanying the software.

If no software license agreement applies, Infineon hereby grants you a personal, non-exclusive, non-transferable license (without the right to sublicense) under its intellectual property rights in the software (a) for software provided in source code form, to modify and reproduce the software solely for use with Infineon hardware products, only internally within your organization, and (b) to distribute the software in binary code form externally to end users, solely for use on Infineon hardware products. Any other use, reproduction, modification, translation, or compilation of the software is prohibited.

For further information on the Product, technology, delivery terms and conditions, and prices, please contact your nearest Infineon office or visit www.infineon.com.
