# Getting Started - Infineon Developer Center for MOTIX™ | BLDC Motor System Ics

Infineon Developer Center

**Infineon tools in one place**
The Infineon Developer Center integrates helpful software to support our customers and reduce their design-in efforts.
For product development please use the Config Wizard for Motor Control IC.
**MOTIX™** dimensioning tools, as well as other software for MOTIX™ products and more, are available in the **Infineon Developer Center**.

| Tool | Description |
|---|---|
| Config Wizard  | Config Wizard for Motor Control IC allows easy configuration of Automotive products. |
| Power Dissipation  | This tool allows the user to calculate the power dissipation of a selected device and if applicable then of external power devices. |
