Evaluation Board Startup Guide

Evaluation Board Startup Guide

Dear Customer,

Your safety is our aim.

Our evaluation boards are functionally tested by a test engineer and provided with a test report. In order to assist you in the use of the platform, please adhere to the following points.

- Optically inspect the PCB assembly
- Please follow the test report distributed with the board

➔ If no defects appear, start testing and use proper safety precautions.

➔ If you discover some question marks, contact our Global hotline service.
