

Quick start Guide

AIROC™ single-band Wi-Fi 4 Cloud Connectivity Manager (CCM) evaluation kit IFW956810

AIROC™ IFW956810 single-band Wi-Fi 4 Cloud Connectivity Manager (CCM) evaluation kit features a configurable Wi-Fi connectivity module that provides a simple, secure, plug-and-play solution for connecting products to IoT cloud services.

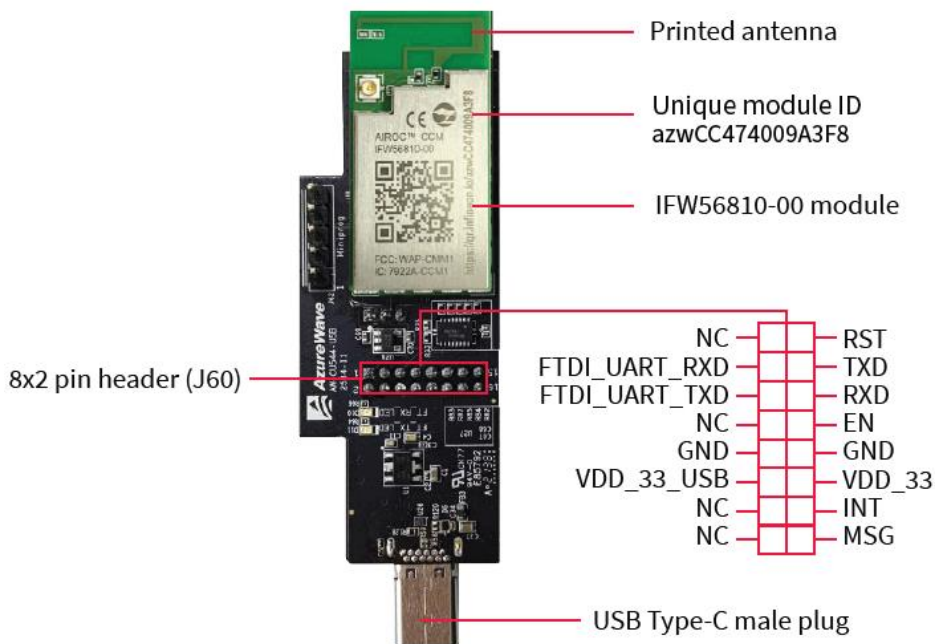

Kit contents

1. IFW956810 single-band Wi-Fi 4 Cloud Connectivity Manager (CCM) evaluation kit to evaluate the IFW56810 single-band Wi-Fi 4 CCM module
2. USB Type-A (male) to Type-C (female) cable
3. Quick start guide (this document)

IFW56810 AIROC™ CCM evaluation kit board details

This document guides you in registering your kit with Infineon.

After completing the steps in this guide, you will be directed to your personal space in the Infineon Developer Center.

Register the kit on Infineon Developer Center

1. Enter the given URL:
<https://softwaretools.infineon.com/projects/create/details>
2. Log in with your Infineon account. Create a new Infineon account if you don't have one.
3. On the product registration page, follow the below steps:
 - Enter the serial number: IFW956810 -> Click on register product.
 - Click on 'View Details' for the registered product.
 - Go to the 'Documents' tab and download the Getting started guide: AN234322 - GETTING STARTED WITH AIROC_TM_IFW56810-00 SINGLE-BAND WI-FI 4 CLOUD CONNECTIVITY MANAGER
4. Follow the instructions in the Getting Started Guide to connect the kit to the AWS IoT cloud service.
