Release Notes

CY8CKIT-015 PSoC® 1 Power Supervision Kit

Release Date: August 22, 2012

Thank you for your interest in the CY8CKIT-015 PSoC® 1 Power Supervision Kit. This document lists installation requirements, limitations, and known issues with the kit.

System Requirements and Recommendations

PSoC Designer™ 5.2 Service Pack 1 or later
PSoC Programmer 3.14 or later

The following configuration is required to install PSoC Designer: PC running Windows® XP (SP2 or higher), Vista, or Windows 7.

Hardware/Operation System Requirements	Minimum	Recommended
Processor speed	2 GHz	2 GHz Dual Core
RAM	2 GB	3 GB
Free hard drive space	1 GB	1 GB
Screen resolution	1024×768	1280×1024
USB	Full-Speed	2.0 Hi-Speed

PSoC Designer requires the following software.

Software Prerequisites	Minimum Version
Microsoft Internet Explorer (not IE8 beta)	7
.NET Framework	2.0 SP1
Adobe Reader (to view PDF documents)	6
Windows Installer	3.1
PSoC Programmer	3.14 or later

Note To install and run PSoC Designer, you may also need to install additional software. If these programs are not already installed, the Cypress Installer will guide you through the process.

Installation

To install, download the *CY8CKIT-015 Kit Setup* executable file from http://www.cypress.com/go/CY8CKIT-015. If you already have PSoC Designer and PSoC Programmer installed, download *CY8CKIT-015 Kit Only*. Run the executable file to start the installation process.

Limitations and Known Issues

None

Documentation

Kit documents are located in the following folder

`C:\Program Files\Cypress\PSoC 1 Power Supervision Kit\1.0\Documentation`

- *CY8CKIT-015 Kit Guide.pdf*
- *CY8CKIT-015 Quick Start Guide.pdf*
- *CY8CKIT-015 Release Notes.pdf*
- *Application Notes*

After installing the PSoC Designer software, refer to the documentation as needed:

PSoC Designer → Help → Documentation

The default location for PSoC Designer documents is:

`C:\Program Files\Cypress\PSoC Designer\5.2\Documentation`

Flash Code Protection

Cypress products meet the specifications contained in their particular Cypress PSoC Data Sheets. Cypress believes that its family of PSoC products is one of the most secure families of its kind on the market today, regardless of how they are used. There may be methods, unknown to Cypress that can breach the code protection features. Any of these methods, to our knowledge, would be dishonest and possibly illegal. Neither Cypress nor any other semiconductor manufacturer can guarantee the security of their code. Code protection does not mean that we are guaranteeing the product as "unbreakable."

Cypress is willing to work with the customer who is concerned about the integrity of their code. Code protection is constantly evolving. We at Cypress are committed to continuously improving the code protection features of our products.
