

# KIT\_PSC3M5\_CC1 PSOC™ Control C3M5 Digital Power Control Card kit release notes

## About this document

### Scope and purpose

Thank you for your interest in the KIT\_PSC3M5\_CC1 PSOC™ Control C3M5 Digital Power Control Card kit. This document lists the kit contents, installation requirements, and associated kit documentation.

### Intended audience

This document is intended for KIT\_PSC3M5\_CC1 users. This board is intended to be used under laboratory conditions.

## 1 Release contents

## 1 Release contents

### 1.1 Kit contents

The KIT\_PSC3M5\_CC1 PSOC™ Control C3M5 Digital Power Control Card kit includes the following components:

1. PSOC™ Control C3M5 Digital Power Control card
2. PSOC™ Control C3M5 Interface board
3. USB Type-C to USB Type-A cable
4. Quick start guide (printed on the kit package)

## 2 Tool information

## 2 Tool information

For information related to the tool, see the [KIT\\_PSC3M5\\_CC1 PSOC™ Control C3M5 Digital Power Control Card kit](#) webpage.

### 2.1 Software and tools

To utilize the code examples in this kit, ModusToolbox™ version 3.3 or later is required. This is available on the [ModusToolbox™ software webpage](#). For more details, see the kit user guide.

Install J-Link software version v7.96d or later, along with the USB driver for the selected J-Link device.

### 2.2 Code examples and kit collateral

The kit [webpage](#) contains both the documents and hardware files. Additionally, the code examples are available in the [Infineon GitHub repository](#).

### 2.3 Installation

The kit user guide, available on the webpage, provides all the necessary software installation instructions. For more information, see the [KIT\\_PSC3M5\\_CC1 PSOC™ Control C3M5 Digital Power Control Card kit](#) webpage.

### 2.4 Kit revision

This is the initial revision (Rev. \*\*) of the KIT\_PSC3M5\_CC1 PSOC™ Control C3M5 Digital Power Control Card Kit.

### 2.5 Documentation

The following kit documents are available on the kit [webpage](#).

- KIT\_PSC3M5\_CC1 PSOC™ Control C3M5 Digital Power Control Card Kit user guide
- KIT\_PSC3M5\_CC1 PSOC™ Control C3M5 Digital Power Control Card Kit release notes

### 2.6 Technical support

For assistance or product-related queries, contact [Infineon Support](#) or post your queries on the [Infineon Developer Community](#) platform.

### 2.7 Additional information

- For more information on the PSOC™ Control C3M5 MCU, including associated documentation, and software, see [PSOC™ Control C3M5](#) webpage
- To know more about the functionality and releases of ModusToolbox™, see the [ModusToolbox™ software](#) webpage
- For a list of trainings on ModusToolbox™, see [ModusToolbox™ software training](#)

### 2.8 Known issues and limitations

The base boards use HTEC8 series connector (MPN: HTEC8-160-01-L-DV-A-BL) as a mating part for the 120-pin board edge connector (J7), instead of the HSEC8 series connector.

## Important notice

The information given in this document shall in no event be regarded as a guarantee of conditions or characteristics ("Beschaffenhheitsgarantie").

With respect to any examples, hints or any typical values stated herein and/or any information regarding the application of the product, Infineon Technologies hereby disclaims any and all warranties and liabilities of any kind, including without limitation warranties of non-infringement of intellectual property rights of any third party.

In addition, any information given in this document is subject to customer's compliance with its obligations stated in this document and any applicable legal requirements, norms and standards concerning customer's products and any use of the product of Infineon Technologies in customer's applications.

The data contained in this document is exclusively intended for technically trained staff. It is the responsibility of customer's technical departments to evaluate the suitability of the product for the intended application and the completeness of the product information given in this document with respect to such application.

## Warnings

Due to technical requirements products may contain dangerous substances. For information on the types in question please contact your nearest Infineon Technologies office.

Except as otherwise explicitly approved by Infineon Technologies in a written document signed by authorized representatives of Infineon Technologies, Infineon Technologies' products may not be used in any applications where a failure of the product or any consequences of the use thereof can reasonably be expected to result in personal injury.
