# ModusToolbox™ 2.4.1 tools package patch release notes

## About this document

This release is a patch to the ModusToolbox™ 2.4 tools package. This document describes the features and known limitations for tools included with this patch.

## What's Included/Changed

This patch release provides an update to fix to the problem with the software not being able to locate manifest files. This issue is desribed on our community page here:

https://community.infineon.com/t5/ModusToolbox-General/ModusToolbox-Project-Creator-and-Library-Manager-report-no-Internet-connection/td-p/347593

The Library Manager and Project Creator tools were update to versions 1.41.

## Installation

You must have already installed the ModusToolbox 2.4™ tools package before installing this patch. If you do not already have the ModusToolbox 2.4™ tools package installed, refer to the ModusToolbox™ installation guide for instructions. After the 2.4 version has been installed:

- For Windows and macOS, launch the patch installer and follow the instructions.
- For Linux, extract the ModusToolbox_2.4.1.xxxx-linux-install.tar.gz file into the existing directory where the ModusToolbox™ 2.4 tools package was installed.
