

First-time Login setup

public

First-time Login setup

- Login credentials will be sent to users via email address: JOBS_ADM@infineon.com
- Users are requested check the “junk folder” under Microsoft Outlook and mark as “not junk”.

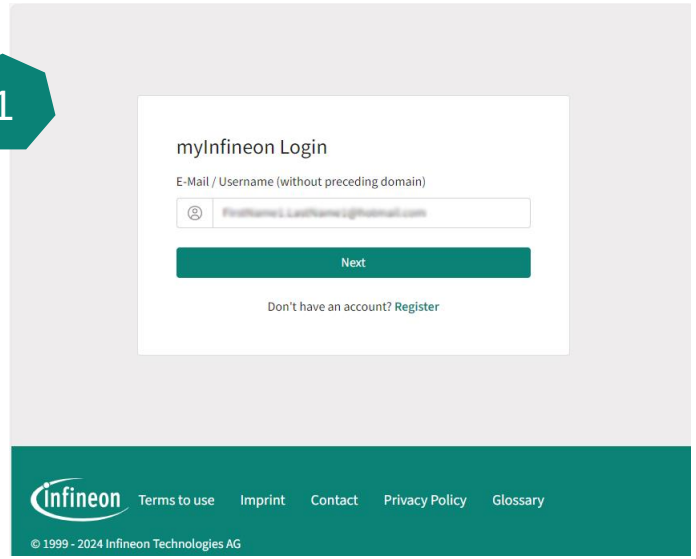

- External users logging to IDIS for the first time requires to complete following setup
  1. Setup their IDIS login password
  2. Configure Multi-Factor authentication (MFA) using Ping-ID
  3. Authenticate users’ Email address using One-time Password (OTP)

Current slides provides step-by-step details for above configurations.
