„green product“ Info

Identification of “Green Products”

Lead-free identification on Product Level:

- Conversion is always traced by datecode information
- “G” in front of the datecode, if applicable. Very small packages, especially discrete products are excluded.

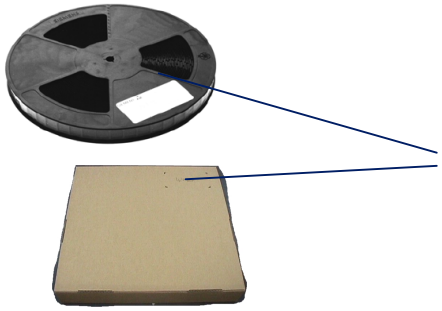

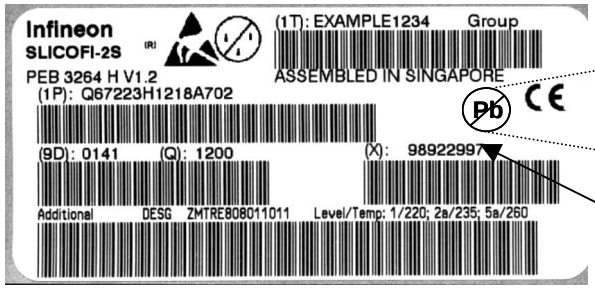

“G” in font of the datecode

Datecode Datecode Green
YYWW -> GYYWW = “Green”

Lead-free identification on Packing Level:

Lead-free logo on the Barcode Product Label (on product box and reels).
During transition period a sticker with the same logo might be used instead.

Pb = RoHS compliant

Multiple MSL

e.g. MSL2/235; MSL3/260
