

MyInfineon Collaboration Platform (myICP)

Guide for Customer registration

What is myInfineon Collaboration Platform?

A web-based platform for exchanging confidential information and collaborating with Infineon partners.

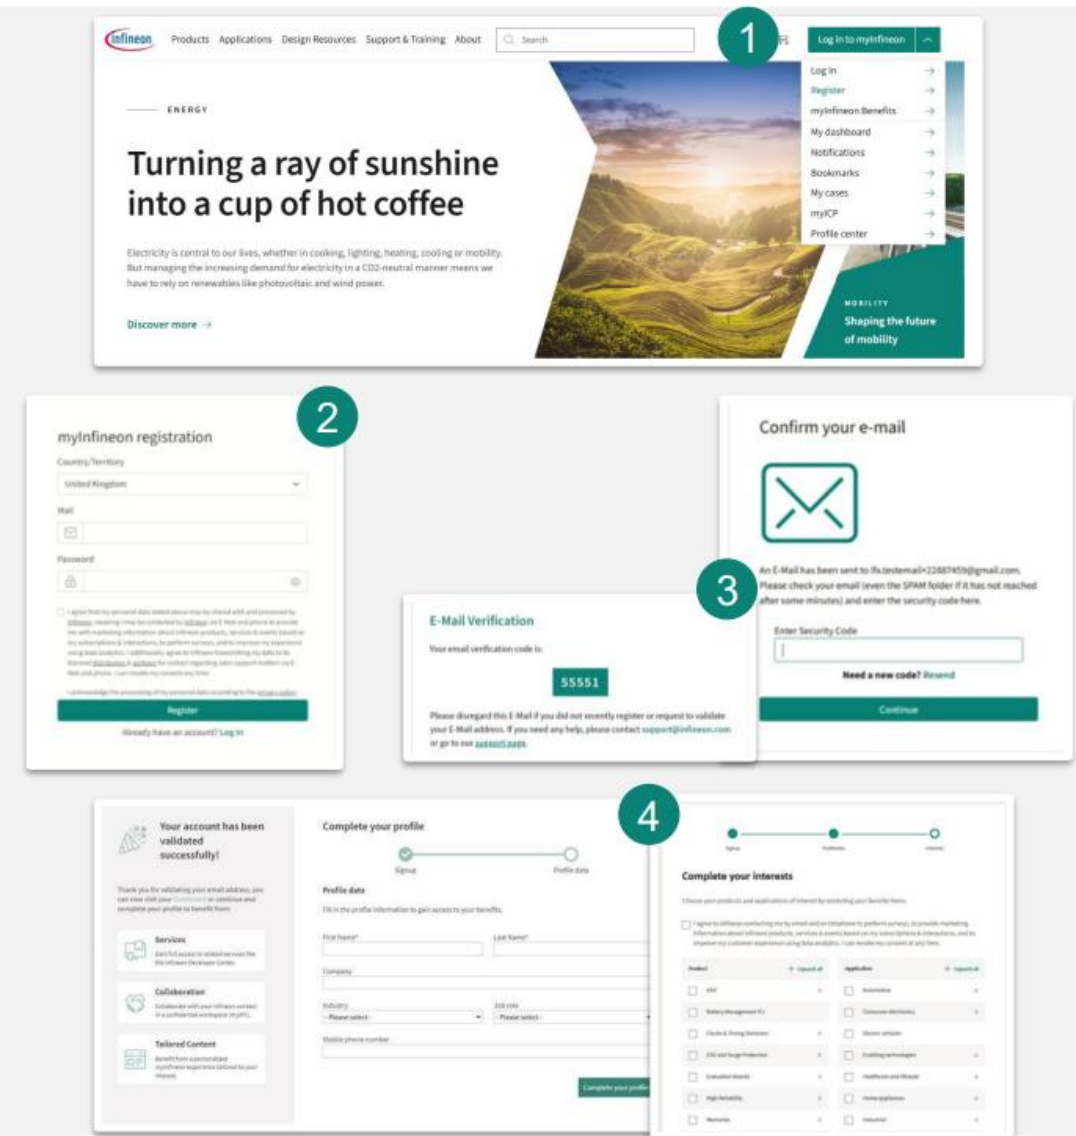

It gives users the ability to **share confidential content to sales/distributors / key customers** like:

- Contracts
- Pre-M9 product information
- Sensitive customer project information
- sending **automated update notifications**.

To access myInfineon Collaboration Platform, **you need to register to myInfineon first.**

myInfineon: How to register?

- 1 **Click on „register for myInfineon“ in the menu-fly out on the top right**
Go to www.infineon.com, open the myInfineon menu-fly-out in the top right corner, and click on *Register*. This will open the myInfineon registration form.
- 2 **Fill out the required data fields in the registration form**
With this **light registration** we make it easy for the user by **just asking for: company email, country, and password**
The user can provide the opt-in to **marketing communication via the checkbox** on the form.
- 3 **Confirm the registration via code**
After submitting the form data the user receives an **email including a code to validate his/her email address**. By adding the code the web form the user confirms his/her address and the registration was successful.
- 4 **Complete the profile**
With clicking on validating the email address a new screen opens asking to **complete the profile by providing more profile data and products and applications of interest** in order to personalize the myInfineon experience in a better way.

The screenshots illustrate the four steps of the myInfineon registration process:

- Step 1: Registration Form** - The Infineon website header with the 'Log in to myInfineon' menu. The menu includes options: Log in, Register, myInfineon Benefits, My dashboard, Notifications, Bookmarks, My cases, myICP, and Profile center. The 'Register' option is highlighted.
- Step 2: myInfineon registration form** - A form with fields for Country/Territory (United Kingdom), Mail, and Password. It includes a checkbox for 'I agree that my personal data entered above may be shared with and processed by Infineon' and a 'Register' button.
- Step 3: E-Mail Verification** - An email verification screen showing the code '55551'. It includes a 'Continue' button and a link to 'Need a new code? Request'.
- Step 4: Complete your profile** - A profile completion screen with sections for 'Profile data' (First Name, Last Name, Company, Industry, Job role, Mobile phone number) and 'Complete your interests' (a grid of checkboxes for various Infineon products and services).

Access to MyICP

In case you have not provided the full information on your profile, please provide your first name, last name and Company.

Access to the Collaboration Platform

- This is how MyICP home looks like, here you should see the name of your site(s) once you have been granted the access
- If you don't see the name of the site you are looking for, it means that access has not been granted yet by your counterpart/site owner.
- Please contact your Infineon counterpart and ask for access.

Access to the Team Site

Please click on the Site button you want to access and you should be looking at something like this:
