

myInfineon features

Personalized Customer Engagement

myInfineon

as your central personal workspace & digital companion, providing you with valuable features and resources to easily accomplish the current stage in the design journey with Infineon

#newweb release 1 launched a new generation of myInfineon

Personal dashboard header including name of sales contact and messaging functionality for sales teams

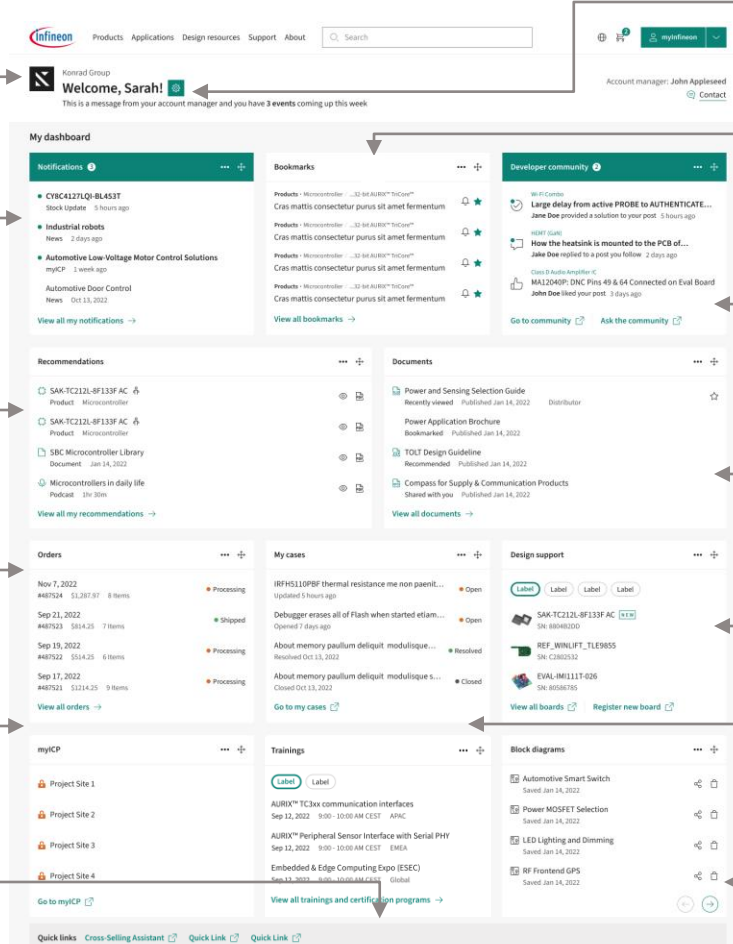

Individual update notifications based on bookmarks and assigned myICP spaces

Relevant and tailored recommendations for products and documents based on provided interest

Availability of order history and details for online orders on infineon.com **New!**

Access assigned myICP spaces for confidential content

Trainings calendar

Profile Center to view and edit personal information, interests and subscriptions

Bookmarking favorite product and application pages and sign up for update notifications

Individual community updates for users own posts **New!**

Viewing recommended & shared documents, by recommendation engine or by sales teams

Preview of registered and provided resources in Developer Center (my boards, my software, my simulations) **New!**

Individual updates about users created cases via case management **New!**

Manage saved block diagram configurations

→ The upgraded myInfineon dashboard launches a new design that enhances the user experience, centralizing the most relevant resources for easy access, while also revamping existing and introducing new valuable features.

Centrally access the Infineon ecosystem with all its tools

Experience your **personal entry point** to the broad Infineon ecosystem through the unified myInfineon dashboard. Effortless navigate to latest state at any time while using one **single user account** for all tools and keeping an overview of all your design resources, cases, community questions and more, **all within a personalized workspace tailored to your needs**

☆ Save bookmarks

Save any product or application page to your myInfineon dashboard & easily return to **continue your research whenever you want**. Say goodbye to the hassle of searching for the same page twice and hello to a more efficient and personalized browsing experience on infineon.com

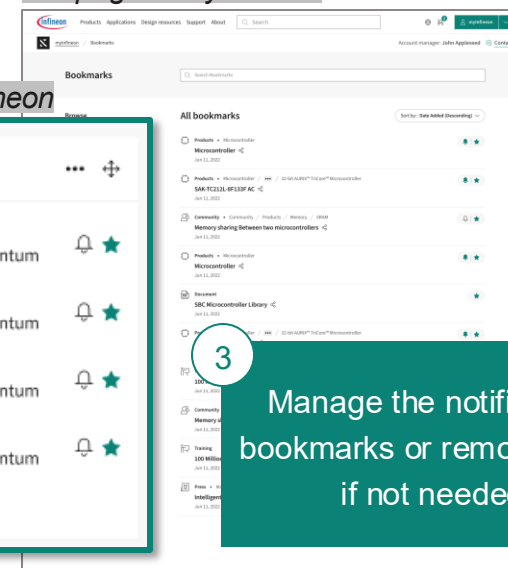

Just press the star icon in the upper right corner on any product- or application that you want to save

Dashboard widget in myInfineon

Come back at any time and continue your journey, directly on your myInfineon dashboard

Subpage in myInfineon

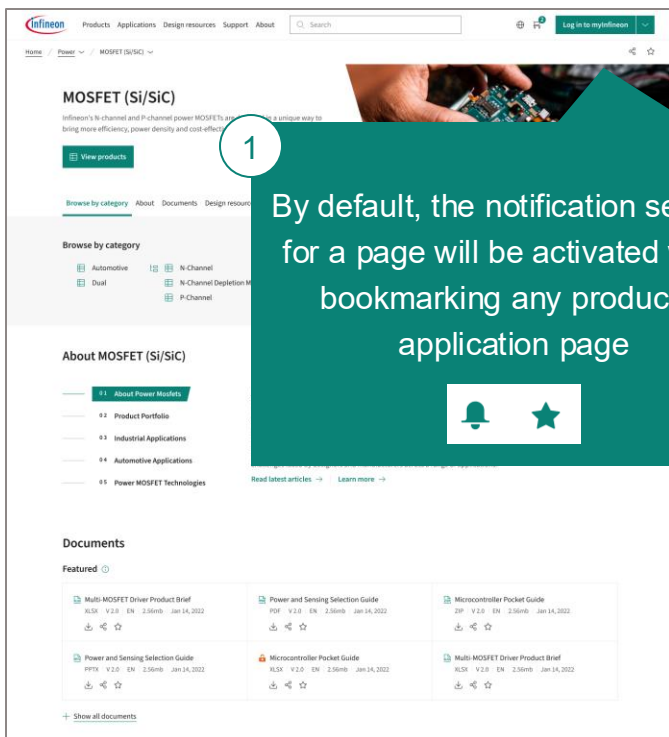

Manage the notifications for your bookmarks or remove the bookmark, if not needed anymore

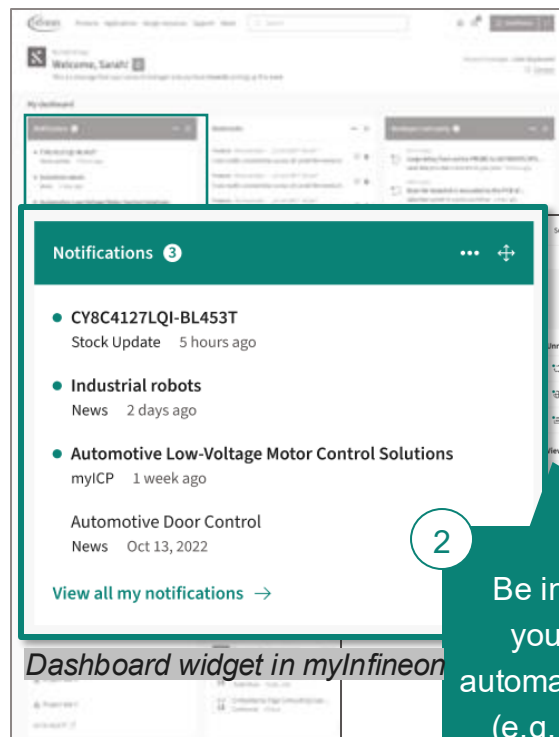

Receive bookmark notifications

Stay up-to-date with the **latest updates** on your bookmarked Infineon products and applications & get **instant notifications** on your myInfineon dashboard. Don't miss out on anything.

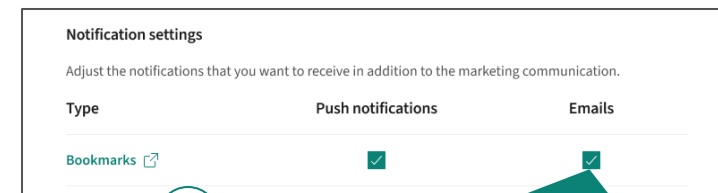

By default, the notification settings for a page will be activated when bookmarking any product & application page

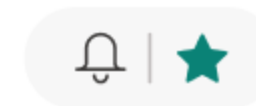

Dashboard widget in myInfineon

Subpage in myInfineon

Activate option to receive automated updates also via email (automated process)

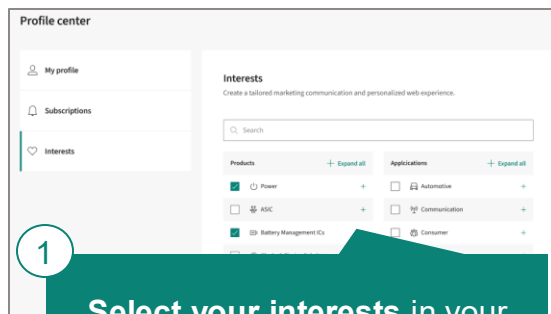

Remove notifications for your bookmarks if not required anymore

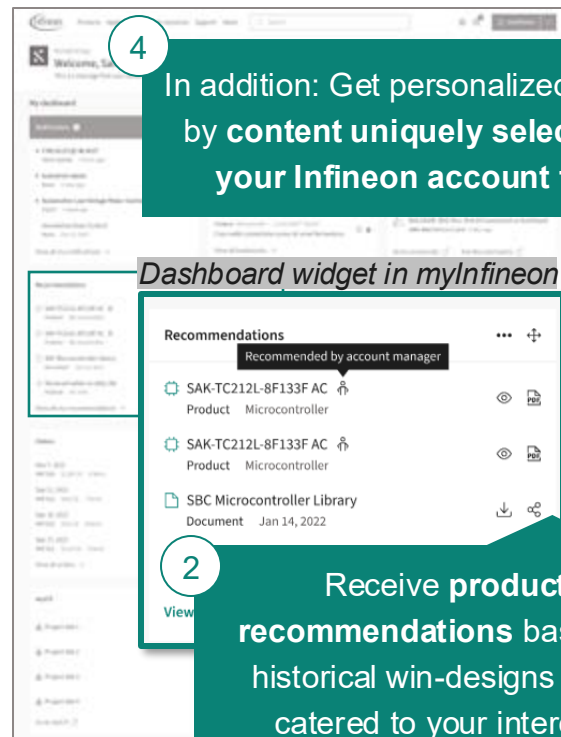

Recommendations

Unlock personalized support for your design success! Receive tailored product and document recommendations that cater to your interests or are uniquely selected by your Infineon account team. While product recommendations are based on historical win-designs fitting, recommended documents are individually selected for your interests.

1

Select your interests in your myInfineon profile to start receiving product and document recommendations.

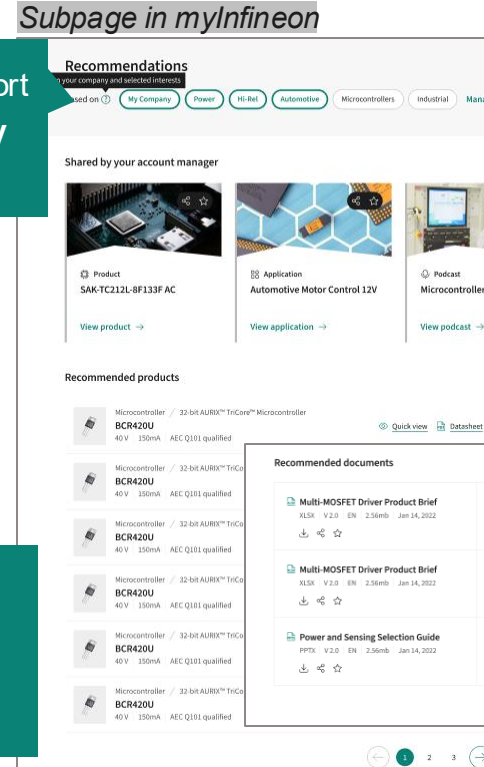

4

In addition: Get personalized support by content uniquely selected by your Infineon account team

Dashboard widget in myInfineon

2

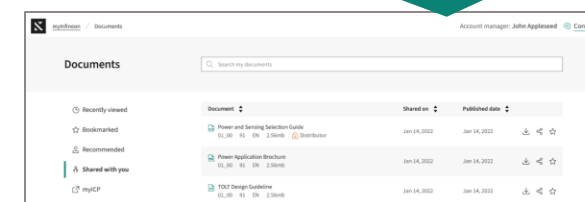

Receive product recommendations based on historical win-designs fitting catered to your interests

Subpage in myInfineon

5

Recommended and shared documents reflected in myInfineon documents app with filter and search functionalities

3

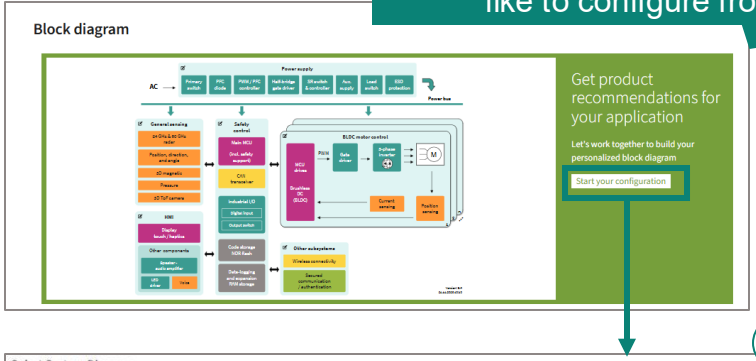

Receive document recommendations individually selected for your interests (in sync with featured documents on product/application pages).

Save your block diagram configuration

Quickly configure your system by selecting and customizing subsystems to receive tailored product recommendations. Save your personalized block diagrams to your dashboard for easy access, reuse, and refinement.

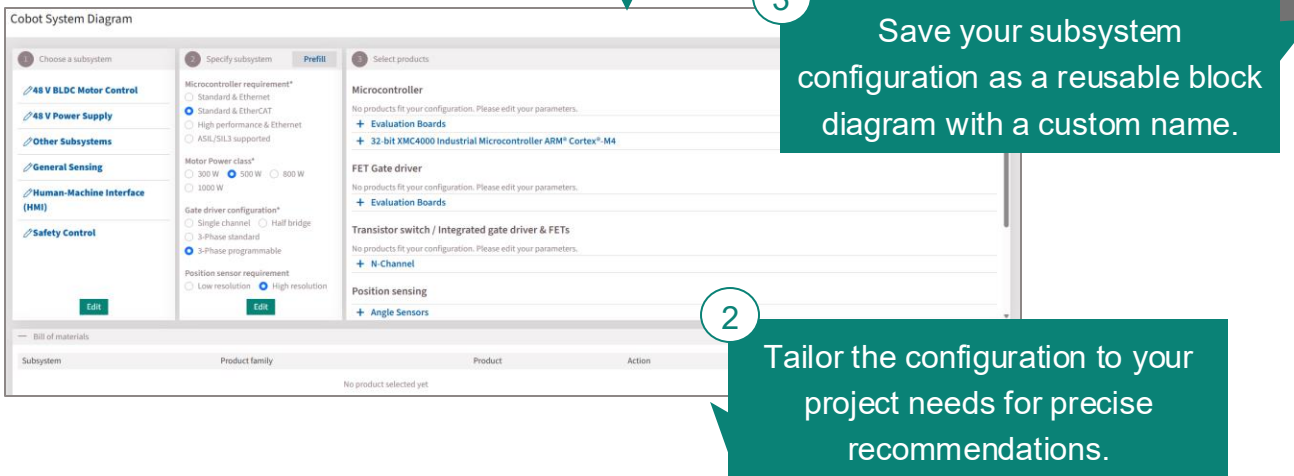

1 Start by selecting the subsystem you'd like to configure from the list.

Design Resources

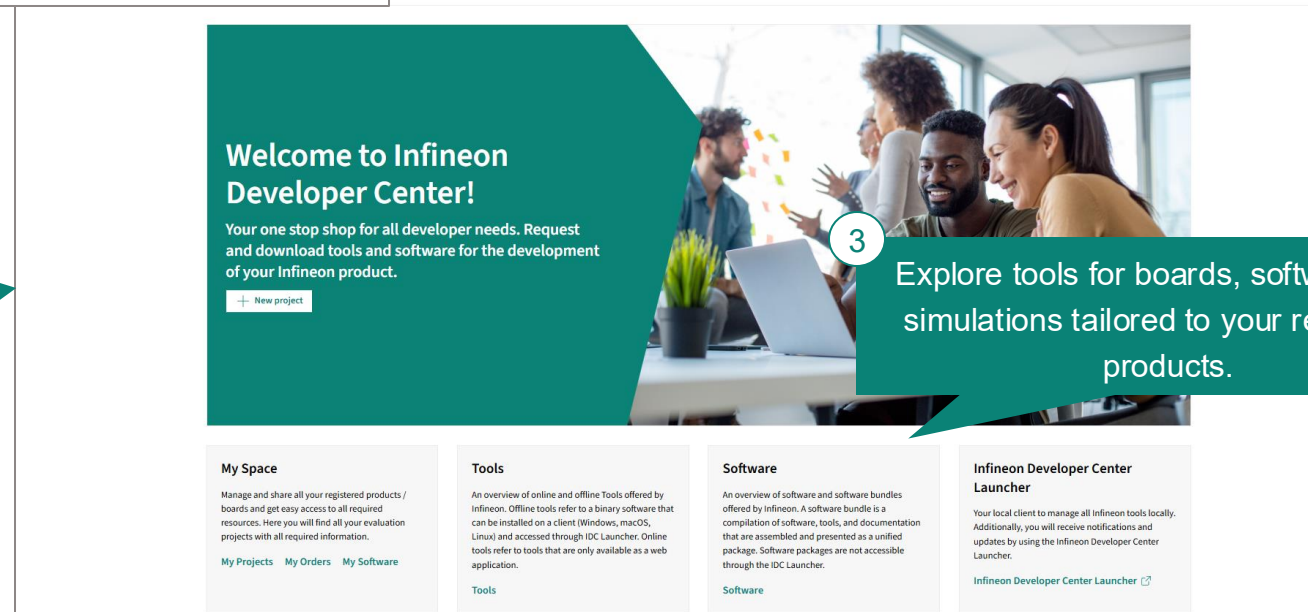

Manage your development resources effortlessly. **Preview and organize your boards, software, and tools** in the Developer Center, and **get started on new projects with just a few clicks**. Whether you're designing, testing, or learning, everything you need is now at your fingertips.

1 Quickly access all your registered development resources, including boards, software, and tools, in one centralized widget.

2 Clicking on a resource redirects the user to the Infineon Developer Center for detailed resource management.

3 Explore tools for boards, software, and simulations tailored to your registered products.

Register your product to obtain exclusive content

Unlock exclusive benefits by registering your products. By doing so, **you'll gain access to a tailored suite of design resources and development tools, including premium content, updates, and expert insights** reserved for registered users, to elevate your design process and take your projects to the next level.

1

Register your board to get exclusive documentation for the design-in.

Product Registration

Product Registration for Infineon evaluation boards unlocks exclusive access to BOMs, schematics, design files, and updates. Register now for 24/7 support.

Developer Community

Connect, learn, and grow with the Infineon Developer Community. Ask questions, share insights, and collaborate with peers and experts to unlock the full potential of Infineon products. With tools for filtering, searching, and organizing discussions, your journey to innovation is just a click away.

1 Individual updates ensure users stay informed on replies or activity related to their own and their subscribed posts.

2 Users are redirected to the Infineon Developer Community for all interactions.

3 Easily interact with the community by clicking 'Ask the Community'.

The screenshot shows the Infineon Developer Community homepage. At the top, there's a navigation bar with the Infineon logo, 'Developer Community', and links for Resources, About, and Groups. A search bar is also present. Below the navigation bar, there's a large banner image of two people working on a computer. To the left, there's a 'My dashboard' section with a 'Developer community' widget. This widget lists recent activity, including a post about a 'Large delay from active PROBE to AUTHENTICATE...' and a reply about a 'HEMT (GaN)' heatsink. Below the widget are buttons for 'Go to community' and 'Ask the community'. In the center, there's a 'Your Community feed' section with tabs for Forum discussions, Blog articles, Knowledge base articles, and Projects. The feed shows a forum discussion titled 'Confirm register update in UCBS' and another titled '400V Cool Enhancement Mode Gallium Nitride High Mobility Transistor (GaN HEMT) Data Sheet'. To the right, there's a sidebar with a 'Need help purchasing an Infineon product?' section and an 'Events and Highlights' section featuring a video about 'Collaboration with YouTuber GreatScott!'.

Manage your subscriptions

Your preferences, your way. Manage your subscriptions effortlessly and decide how Infineon connects with you—be it through email, phone surveys, or push notifications. Stay informed in your preferred language with updates tailored to your needs.

1

To manage your subscriptions, go to your dashboard and click on 'Settings'.

Case Management

For sensitive or confidential inquiries, utilize our secure support channel, myCases. This dedicated platform allows you to submit and track your cases, receiving personalized updates and guidance to help you navigate each step of the process. With myCases, you can ensure that your confidential matters are handled discreetly and efficiently, with clear visibility into the progress and resolution of your inquiry.

1 Access all your cases from a single dashboard, making it easy to track progress, review updates, and respond to inquiries.

myInfineon empowers you with smarter, more efficient processes,
delivering personalized content, right at your fingertips.

myInfineon - one login, infinite possibilities

myInfineon: How to register?

- 1 **Click on „register for myInfineon“ in the menu-fly out on the top right**
Go to www.infineon.com, open the myInfineon menu-fly-out in the top right corner, and click on *Register*. This will open the myInfineon registration form.
- 2 **Fill out the required data fields in the registration form**
With this **light registration** we make it easy for the user by **just asking for: company email, country, and password**. The user can provide the opt-in to **marketing communication via the checkbox** on the form.
- 3 **Confirm the registration via code**
After submitting the form data the user receives an **email including a code to validate his/her email address**. By adding the code the web form the user confirms his/her address and the registration was successful.
- 4 **Complete the profile**
With clicking on validating the email address a new screen opens asking to **complete the profile by providing more profile data and products and applications of interest** in order to personalize the myInfineon experience in a better way.
