

Manager - Operations Planning & Controlling

Job description

Are you inspired to contribute to Infineon's success in Subcontractor management? Join our Outsourced Semiconductor Assembly & Test team to drive initiatives pertaining to production planning and control, mainly subcontractors' delivery fulfillment, demand planning, cycle time and workflow improvements.

In your new role you will:

- **Ensure reliable and high quality at production partners** by operational planning and logistics, continuously monitor and **improve cycle time, delivery reliability and performance** at the production partners
- **Execution of short term demand** to subcontractors partners
- **Ensure inventories** at the subcontractors are at **an optimal level** and in alignment with the internal system
- **Drive supplier to meet defined KPIs** of Infineon
- Communication interface of supplier for all **Production and Planning execution topics**
- **Drive critical product fulfillment** and **maximum revenue** for Infineon

Profile

You strive for high quality results. You take matters into your own hands and are able to unite all parties involved. Thanks to your strong analytical and communication skills, you successfully handle complex topics and communicate them clearly to the different stakeholders.

You are best equipped for this task if you have:

- Bachelor's Degree in Electronic / Electrical Engineering / Industrial engineering / Business Administration / Economics
- **At least 10 years'** of **relevant planning, coordination and scheduling production** experience in manufacturing environment, preferably in the **Semiconductor industry**
- Good level of pro-activeness and able to **handle subcon to management discussion**
- Customer oriented and good understanding of **Supply Chain process, Inventory Management & Control**
- Proficient in Microsoft Office software with good knowledge on **logistics, business process** and relevant IT tools such as **SAP and Workstream**
- Effective **writing and communications skills** and able to interact with all levels
