

Driving decarbonization and digitalization. Together.

Senior Data Virtualization Engineer (f/m/div)*

Job description

Are you passionate about Data Management? Would you like to enable others with your technical knowledge? Data is becoming an increasingly important asset of Infineon and this team plays a fundamental part in enabling our business counterparts to gain new insights from manufacturing data. In this role, you will be responsible for the manufacturing data domain inside of the Infineon data virtualization platform and closely collaborate with our global user community.

In your new role you will:

- **Define and develop** a transparent **manufacturing data service structure** to enable Infineon Data Scientists for **convenient usage** and **value creation**
- Continuously expand **manufacturing data solutions** running on a Denodo-based **data virtualization platform**
- Coordinate **implementation activities** related to the data virtualization platform
- Ensure **operational stability of manufacturing solutions** running on the data virtualization platform
- Act as a **consultant and trainer** towards the Infineon user community
- Stay on top of the **latest trends in data virtualization**
- and apply them at Infineon
- **Grow** your own skillset in the area of data virtualization

Profile

You enjoy networking, cooperate across boundaries and appreciate the contribution of others. Furthermore, you communicate openly, clearly and coherently. Of course, you treat your team members, colleagues and partners with trust and respect.

You are best equipped for this tasks if you have:

- A degree in **Computer Science, Data Science, Engineering** or **Natural Sciences**
- **At least 3-5 years** of experience related to **Data Management** - preferably in a big international company
- Familiarity with **concepts of data virtualization** and **data governance**
- First experience with **data virtualization software** (e.g. Denodo)
- Knowledge of at least one **programming language** (e.g. C++ / C#)
- Experience in **Database Management** with **SQL and Non-SQL** (e.g. Oracle, MongoDB)
- Experience with **Data Modelling**

HR Business Partner

- Advanced **communication, consulting** and **presentation skills**
- A “**hands-on**” **mentality**
- Fluent English skills, German is a plus

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

** The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
