

Internship: Go-2-Market and Tools Support

Job description

In our Product Application Engineering team we are looking for students (f/m/div)* to support our highly motivated team. We guide our customers during the design-in process of our products. Apply now for this internship in Villach and be part of our team!

In this internship you will extend and improve our **Go-2-Market material** to enable **customer self-service**. This includes to support our team in writing **technical documents** and generating **technical drawings** in **Microsoft Visio**. Another task will be to **benchmark** our **Go-2-Market materials / strategies** against our competitors.

Further information:

Type of employment: Temporary / Part-time (Flexible working hours from Monday to Friday between 6 a.m. and 7 p.m.)
Duration: min. 12 months

Profile

You successfully meet the requirements, if you are a motivated and committed student from the field of **Electrical Engineering** or **similar**. You are best equipped for this task if you additionally offer:

- **Good technical skills** in the field of Electrical Engineering
- **A Self-motivated & proactive working style**
- **Open-mindedness**
- **Excellent English skills**, German would be beneficial

This position is subject to the collective agreement for workers and employees in the electrical and electronics industry (full-time), employment group B for bachelor students, employment group D for master students (<https://www.feei.at/wp-content/uploads/2022/05/minimum-salaries-white-collar-workers-2022.pdf>).

Please attach the following documents (German or English) to your application:

- Motivation letter
- CV
- Certificate of matriculation at a university
- Transcript of records
- Highest completed educational certificate (Matura certificate for Bachelor students, Bachelor certificate for Master students)

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

– Automotive (ATV) shapes the future of mobility with microelectronics enabling clean, safe, and smart cars –

Our semiconductors are essential for supporting the automotive megatrends: electromobility, automated driving, connectivity, and advanced security. They link the real and the digital world, driving the ever-advancing pace of automotive digitalization. Infineon ATV is the number one semiconductor partner in the fast-changing automotive world, based on our system knowledge and our passion for innovation and quality.

** The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*

Infineon Hub - Connect. Create. Challenge.

The iHub at TU Wien represents an inspiring tech platform, networking area and event location, connecting Infineon Austria with tech experts, science specialists and young professionals.
