

Staff Analyst - Business Intelligence and Analytics

Job description

Do you enjoy both, working technically and enabling others with your knowledge? If working in a cross culture international organization excites you, then join our Business Intelligence & Analytics team, where you get to collaborate closely with internal customers and transform their requirements into business insights. We are fully committed to this organization's strategic impact and we are looking for you to leave your footprint and to work with us on templates that shape Infineon's future. Apply today and we look forward to connecting with you!

In your new role you will:

- Proactively **work with key internal customers** associated with new and existing business initiatives to understand, shape, agree and **deliver their Business Intelligence and Analytics requirements**
- **Actively drive company-wide SAP S4 project rollout for Analytics and Reporting** and take over responsibility through the full cycle of implementation from requirement engineering to deployment and 3rd level support
- Consolidate user requirements to **create and review functional designs**
- **Conduct tests** and **provide training** for processes and functions
- Take over the ownership and be an **expert for end-to-end processes**
- Steer our internal development team, service providers and external consultants
- **Develop and Implement various BI content solutions** as needed including database & ETL, reports, dashboards and scorecard as integral part of the Infineon Business Intelligence architecture

Profile

You are best equipped for this task if you have:

- Master's / Bachelor's Degree in Information Technology / Computer Science with **at least 3 years** of relevant work experience in the **Business Intelligence and/or Data Engineering areas** and in implementation, configuration and operation support
- Experienced as Business Consultant / Business Analyst in **managing agile implementation cycles and rollouts**
- Excellent understanding of **Data Modeling concepts** and **SQL** in a **DataWarehouse context**
- Expert in **development using Oracle, PLSQL & ETL process**
- Good know how with the newest **SAP BI** technology, eg: **SAP BW / SAP HANA**

At a glance

Location: **(Singapore)**
Job ID: **352961**
Start date: **as soon as possible**
Entry level: **5+ years**
Type: **Full time**
Contract: **Permanent**

- Working knowledge of **reporting** and **data visualization**, eg: **SAP Business Objects, Tableau**
- Excellent **communication & interpersonal** skills to interact with business users and other stakeholders

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

In accordance with the requirements set by the Singaporean Government, Infineon Technologies Asia Pacific Pte Ltd ("Infineon") can only allow individuals who are (a) fully vaccinated, (b) certified to be medically ineligible for a vaccine or (c) have recovered from COVID-19 within a prescribed period, onto company premises. Therefore, Infineon requires all new employees, as well as contractors and business partners, to be fully vaccinated against COVID-19. "Fully vaccinated" means individuals have completed the full regime of an approved COVID-19 Vaccine as listed under the World Health Organization (WHO) Emergency Use Listing (EUL) including the respective post-vaccination period to ensure the vaccine has become full effective. Anyone who is unable to be vaccinated due to an approved and/or recognised exemption condition may apply for special consideration.
