

IT Business Analyst - LMS Expert (f/m/div)*

Job description

Are you an expert for Learning-Management-Systems (LMS), eager to dive into complex topics and to demonstrate your excellent communication and project management skills? Then we have an exciting opportunity for you! Join us as IT Business Analyst to create the leading training platform for customers and partners in the semiconductor market and support the creation of Infineon's new Learning Management/Experience System in this context.

In your new role you will:

- Consult and **guide our colleagues** from the Sales & Marketing academies as well as other internal stakeholders **regarding the requirements and the design of a new learning and training ecosystem**
- **Design and implement the new LMS** together with internal and external partners
- **Manage projects to setup and further grow the new learning and training ecosystem** and all required integrations
- Become the **IT contact person for all LMS related topics** for our Sales & Marketing community
- **Ensure a stable operation for the entire technical environment** in close collaboration with other IT teams and external suppliers

Profile

As IT Business Analyst you are personally committed to your internal customers' concerns and give them a high priority while setting your own ambitious goals. You concentrate your creativity and knowledge on producing results with real added value. Furthermore, your drive ideas forward until the concrete implementation, whereby your networking and communication skills help you to quickly establish a successful cooperation even across boundaries with your stakeholders.

You are best equipped for this task if you have:

- A degree in **(Business-) Informatics, Computer Science** or comparable
- At least **3-5 years of work experience as an IT Business Analyst** or in a related area
- Practical **experience in defining and implementing IT services and solutions**
- Experience in **administrating an LMS** as well as first **project management** experience
- First knowledge and experience in the area of **data protection** would be an added advantage

Talent Attraction Manager

- The ability and motivation to work in a **dynamic environment, solve complex problems** and **communicate successfully** technical solution with non-technical stakeholders
- Excellent **English** language skills, good **German** language skills would be a plus

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

The **Information Technology** department has become an important business advisor for Infineon, converting business requirements into great IT solutions. It is responsible for provisioning hardware and software solutions at benchmark costs for all areas within Infineon reaching from office users to research & development, to frontend and backend production around the globe. More than 950 IT-colleagues work closely together with other business areas and external partners. They increase the efficiency of business processes offering more than just modern equipment, secure infrastructure and newest communication solutions.

** The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
