

## Configuration and Change Management Specialist (f/m/div)\*

### Job description

Do you consider yourself a highly motivated professional? Do you want to play a major role in the support of the development projects for Automotive applications? Then, join our Project Management Excellence team as a Configuration and Change Management Specialist, and be part of a highly skilled team contributing to set the standards in the products development.

As a Configuration and Change Management Specialist, you will support the development projects for Automotive applications. Your focus will be on the definition and execution of configuration and change management for our automotive IP development platform. You will work in close cooperation with the project managers and development teams. This role is a key function to ensure that the projects and products meet the requirements of Automotive standards.

In your new role you will:

- Define the **project database infrastructure** and the rules for documents and work products storage and linking;
- Define the **Configuration and Change Management plan**, to ensure that all the relevant project documents and work products are produced, versioned, archived through the project and product lifecycle;
- **Work closely with the project managers and the project teams** to ensure that the Configuration and Change Management process is well integrated and smoothly executed in the project lifecycle;
- **Cooperate across the developments sites** to ensure definition, adoption and execution of standardized processes;
- **Train regularly the project teams** on procedures and tools of configuration and change management;
- Decide how to **set up product variants** and **integrate reusable IP**;
- **Define and implement work instructions** which ensure compliance to relevant standards, while keeping daily development work efficient and lean.

Please note that this position can be filled in **Padova, Graz, Munich, or Bucharest.**

### Profile

You demonstrate high-quality standards for yourself and other people and generate value with your ideas and solutions. You have good negotiation and prioritization skills. You communicate openly, clearly, and coherently and are able to quickly establish
