

Driving decarbonization and digitalization. Together.

Semiconductor Fabrication Operator

Job description

Do you have experience as a fab operator in the semiconductor industry? We are looking for you! If you're looking for a stable career with one of the top ten semiconductor companies in the world, this is the position for you! Apply now!

In your new role you will:

- Work in a team-driven environment to help meet **safety, quality, and production goals**
- Process material in a fab **operations cleanroom** environment in an efficient manner in order to provide high-quality products
- Execute qualifications on equipment and make sure output meets expectations
- Adhere to process and equipment specifications to ensure a high-quality product
- Freely communicate ideas for improvement to help Infineon consistently be the best in the business
- Take ownership in your work area and ensure you are making the best quality product in high volume

Profile

You are best equipped for this task if you have:

- At least 18 years old with a **High School diploma or equivalent**
- **6 months + of cleanroom and fab experience**, operating equipment used in **high-volume semiconductor fabrication**
- Ability to work in a team-driven environment to meet **safety, quality, and production goals**
- Ability to work quickly processing material to provide a high-quality product
- Knowledge and/or experience with **equipment qualifications, process, and equipment specifications**
- A high sense of ownership, and pride in your work
- Ability to lift/carry 10 pounds repetitively
- Ability to walk/stand throughout the 12-hour shift
- Motivation to be part of a productive team
- Rotating day shift of 12-hours per day (1 week = 3 days, 2nd week = 4 days)

Why Us

Infineon is a world leader in semiconductor solutions. We make life easier, safer, and greener – with technology that achieves more, consumes less and is accessible to everyone. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

Driving decarbonization and digitalization. Together.

Spansion LLC, is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws. Applicants with questions about access or requiring a reasonable accommodation for any part of the application or hiring process should contact the Talent Network by phone at (408) 503-2194.

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your on-boarding documents .

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.

IMPORTANT NOTICE:

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the internet or electronically. Please kindly refrain from disclosing your PII electronically during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.
