

## Senior Specialist Lab Expert Reliability Test Development (f/m/div)\*

### Job description

You are looking for the opportunity to work in an international company? You would like your job to be a part of the future and help us to shape it in a good way? You desire to work surrounded by nature with a beautiful landscape! This is your chance to be a part of Infineon in Villach! Apply now!

In your new role you will:

- **interact with clients** to derive technical details based on their requirements
- **develop stress test boards** in the course of the product qualification
- **align with clients** in regards to updates on committed timelines
- **work on projects** independently
- **document, verify and release** defined stress test setup
- **interact in the global area** of stress test board development
- do **technical problem solving support** during the preparation of the stress test system
- **improve processes** to increase quality and productivity

### Profile

You are best equipped for this task if you have:

- successfully completed **technical colleague or a university degree** in electronics, electrical engineering or similar
- **programming skills** in C or assembler
- **Microsoft office knowledge** on an advanced level
- **experience** and joy in **teamwork** and complement the existing team
- **English language skills** and German skills as an advantage

We are filling this position through one of our leasing partners. A valid work permit for Austria or EU citizenship is a prerequisite for this position. This position is subject to the collective agreement for workers and employees in the electrical and electronics industry, employment group E-F (<https://www.feei.at/wp-content/uploads/2022/05/minimum-salaries-white-collar-workers-2022.pdf>). The monthly salary is paid 14 times p.a. A higher payment is negotiable depending on your expertise and skills.

## Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

The **backend segments** enable the development of comprehensive innovation across the entire value chain: starting with chip manufacturing, to wafer testing, preassembly, package development and development of new materials. The backend cluster combines the competencies for planning, productivity, innovation and quality, assembly and testing.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with more than 3700 colleagues from over 65 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria's southernmost province, in close proximity to the Italian and Slovenian border. Living in Austria has many social, health-care-related and economic perks. The country's social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach itself benefits from its status as a "small town", offering everyday living at affordable prices in an outstanding setting.
