## Senior Systems Engineer - IT Tech Doc (Quality Assurance) (f/m/div)

### Job description

Do you describe yourself as a dynamic and technical person who can grow our IT services in the area of Technical Documentation solutions? If yes, then we should get to know each other. As Senior Systems Engineer for quality assurance at IT, you will be responsible for the continuous integration and deployment (CI/CD) of manual and automated test solutions. You will drive the design, maintenance and execution of test plans, and ensure the quality of the integration of end-to-end application flows. Join us in our digitalization journey and send us your resume!

In your new role you will:

- **Design, develop and optimize the test plans along the CI/CD flow**, create test cases for end-to-end testing of applications for technical documentation, and coordinate with teams from various locations for the release management plan.
- **Maintain the automated and manual testing framework** for regression testing, performance testing and integration tests with other applications
- **Actively contribute to test the content platform and its features** – test assignment, execution, and reporting, coordinated along the release calendar, publication pipelines and related tool chains
- **Debug and solve test package related problems** arising during development, integration, or UAT (user acceptance testing), using different ways of testing
- **Independently drive other test engineering and innovation topics** and coordinate with other IT techdoc-related application teams, to minimize test time and optimize test costs
- **Provide specialist guidance and advice** to less experienced colleagues in order to increase the team skill level and collaboration

During an **individual training phase**, we will prepare you for your new tasks. With **regular feedback discussions** and **planning of your professional and personal development** we want to ensure your success in this position.

In addition, you will have the opportunity to perform some of your tasks in your **home office** (Hybrid) and you can arrange your **working hours flexibly**.

### Profile

You know how to make use of your potential (and / or capacity) and motivate yourself and others to achieve top results and performances. You have a realistic sense of your strength and needs for development. You feel responsible for and contribute to the team's success and promote an awareness for quality in your area of work. You are able

## Why Us

**Driving decarbonization and digitalization. Together.**

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

The **Information Technology** department has become an important business advisor for Infineon, converting business requirements into great IT solutions. It is responsible for provisioning hardware and software solutions at benchmark costs for all areas within Infineon reaching from office users to research & development, to frontend and backend production around the globe. More than 1000 IT-colleagues work closely together with other business areas and external partners. They increase the efficiency of business processes offering more than just modern equipment, secure infrastructure and newest communication solutions.

The provincial capital **Klagenfurt**, in the heart of Carinthia, impresses with its liveliness, culture, numerous events and sights. The southern climate with the pictorial Wörthersee, the close link between urban infrastructure and rural areas as well as the proximity to Slovenia and Italy make Klagenfurt particularly livable.

**We are on a journey to create the best Infineon for everyone.**

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
