Driving decarbonization and digitalization. Together.

Senior Full Stack Developer (f/m/div)

Job description

You are a software engineer who likes to design and run digital platforms and to work in cross-functional teams? Then we have the perfect opportunity for you! Apply now to become part of our global acting team in Klagenfurt!

In your new role you will:

- **Design, build and run a digital platform** that drives Infineon's digitalization journey for product portfolio and roadmap management
- **Collaborate** with other developers, architects, business analysts, UX experts and BIZ stakeholders **to design and build a system that is efficient, effective and scalable**
- **Work in cross-functional Scrum teams** and follow DevOps practices
- **Explore emerging trends and technologies** in software development

During an **individual orientation phase**, we will prepare you in the best possible way for your new responsibilities. With **regular feedback meetings** and systematic **planning of your professional development**, we want to support and ensure your success in this position.

In addition, you will have the opportunity to perform some of your tasks in your **home office (Hybrid)** and you can arrange your **working hours flexibly.**

Profile

You are best equipped for this job if you have:

- A **degree** (Bachelor/Master) or finished a **HTL for computer science / informatics**
- **3+ years of work experience as a software engineer**, including architectural design
- Strong experience with modern **web development frameworks** such as Angular, React, NestJS / NodeJS, as well as **programming skills** with TypeScript /JavaScript, HTML and CSS
- Experience with **Git, DevOps, CI/CD pipelines and test automation**
- Knowledge in **(relational) database technologies**, such as **MSSQL and S3/CEPH**
- Experience in working with **agile methods** such as **SCRUM or Kanban**
- Know-how of **containerized application hosting** with Kubernetes/Openshift (as an advantage)
- **Strong communication skills** and experience working in a team environment
- **Fluent English skills (mandatory)** with German skills as a plus

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

The **Information Technology** department has become an important business advisor for Infineon, converting business requirements into great IT solutions. It is responsible for provisioning hardware and software solutions at benchmark costs for all areas within Infineon reaching from office users to research & development, to frontend and backend production around the globe. More than 1000 IT-colleagues work closely together with other business areas and external partners. They increase the efficiency of business processes offering more than just modern equipment, secure infrastructure and newest communication solutions.

The provincial capital **Klagenfurt**, in the heart of Carinthia, impresses with its liveliness, culture, numerous events and sights. The southern climate with the pictorial Wörthersee, the close link between urban infrastructure and rural areas as well as the proximity to Slovenia and Italy make Klagenfurt particularly livable.

We are on a journey to create the best Infineon for everyone.
This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.
We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.
Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
