Driving decarbonization and digitalization. Together.

Cloud-Solutions Architekt (f/m/div)

Job description

You love to work in intercultural and international teams? You want to use your knowledge to improve our public cloud platforms? Furthermore, you're collaborative, have excellent communication skills and can present proposals also in senior management rounds? Apply now to become part of our team in Klagenfurt!

In your new role you will:

- **Further improve the enterprise-readiness of public cloud platforms** – mainly following the landing zone approach
- **Develop, adapt and enforce** cloud infrastructure architecture, standards and best practices
- **Ensure optimal performance, security, and scalability** of the cloud infrastructure
- **Analyse the existing environments**; development of improvement proposals and measures for optimization in the area of Cloud (AWS / Azure / possibly GCP and Alibaba)
- Closely **collaborate with project management teams** to ensure project progress (in terms of time, resources, risks) as well as with IT experts and with service architects from IT Delivery
- **Collaborate with application developers and Enterprise Architects** to ensure that the solution architecture fits into the overall business picture and goals
- **Guide development teams** in crafting state-of-the-art cloud (AWS, Azure) and Kubernetes-based applications that fulfill reliability and scalability objectives
- **Partner with product owners and stakeholders** to design IT solutions that bring their ideas and visions to life
- **Enhance the shared infrastructure stack** (networking, logging, authentication, inventory) together with our platform engineering team so that our product teams can concentrate on developing their products

During an **individual training phase**, we will prepare you for your new tasks. With **regular feedback discussions and planning of your professional and personal development** we want to ensure your success in this position.

In addition, you will have the opportunity to perform some of your tasks in your **home office** (Hybrid) and you can arrange your working hours flexibly.
