

Driving decarbonization and digitalization. Together.

Specialist Automation, Development & API Management (f/m/div)

Job description

Are you looking for a new challenge and would you like to contribute your expertise to a global company? Furthermore, you enjoy working on new topics and projects? Apply now and become part of our global team in Klagenfurt!

In the area of **Automation, Development and API Management** you will be involved in the design, implementation and operations of global services in our service management platform solutions. You will play an essential part in the coordination, implementation and support of our application interface management platforms in the course of service- and process automation projects.

In your new role you will:

- Have your **focus on application interface management**
- **Operate solutions** through entire service lifecycle (design, build, run)
- **Drive automation initiatives**
- **Operate and configure applications** on container platform, e.g. OpenShift

During an **individual training phase**, we will prepare you for your new tasks. With **regular feedback discussions** and **planning of your professional and personal development** we want to ensure your success in this position.

In addition, you will have the opportunity to perform some of your tasks in your **home office** (Hybrid) and you can arrange your **working hours flexibly**.

Profile

You are best equipped for this task if you have:

- A **degree** (Bachelor/Master) in **Computer Science, Informatics** or similar
- First **experience in system/platform operations** and **projects**
- Experience in **database- and reporting technologies** e.g. MS SQL
- Container **Know-How in OpenShift** (as an advantage)
- Experience in **integration of various kind of systems** (REST, web services, etc)
- **Service Management Processes knowledge** with focus on **ITIL**: IT-Request Fulfillment, IT-Incident Management, Change Management, Problem Management
- **Problem Solving skills** (as an advantage)
- **German and English skills**

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

The **Information Technology** department has become an important business advisor for Infineon, converting business requirements into great IT solutions. It is responsible for provisioning hardware and software solutions at benchmark costs for all areas within Infineon reaching from office users to research & development, to frontend and backend production around the globe. More than 1000 IT-colleagues work closely together with other business areas and external partners. They increase the efficiency of business processes offering more than just modern equipment, secure infrastructure and newest communication solutions.

The provincial capital **Klagenfurt**, in the heart of Carinthia, impresses with its liveliness, culture, numerous events and sights. The southern climate with the pictorial Wörthersee, the close link between urban infrastructure and rural areas as well as the proximity to Slovenia and Italy make Klagenfurt particularly livable.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
