Senior Manager Contract Management (w/m/div)

Job description

You want to achieve the best possible results for your customers in contract negotiations and identify potential risks in the process? You are as binding as you are assertive, you have a quick grasp of things and you have sound experience in project management? As a Senior Manager Contract Management, you will support our team in the Group Contract Management in drafting and negotiating contracts in an international environment. In doing so, your tasks will go far beyond the administrative: you will keep an eye on both commercial, technical and tactical aspects, maintain an overview, and consider the perspectives of a wide range of stakeholders. Does this sound like an exciting task for you? Then we are very much looking forward to getting to know you!

In your new role you will:

- **First point of contact for all business contract-related enquiries**; clarification of all contract-related issues before and after conclusion of the contract
- **Overall contract project management** responsibility with worldwide customers and partners (e.g. from consulting on business concepts to contract signature)
- **Development of negotiation strategies with cross-functional negotiation team**, leading complex contract negotiations, strategic projects and customer meetings
- **Consult with division contacts** on status of contract negotiations & contract topics
- **Transfer your experience** from contract landscape knowledge and concluded contract projects **to consult top management** on designing and improving contract concepts and business models
- **Identifying and assessing risk-related areas** during the contract negotiation and life cycle with the required internal counterparts

Profile

You approach your work systematically and with foresight, searching for the best solution together in a team, respecting different attitudes and points of view and using the resulting creative potential. Your convincing conduct and assertiveness coupled with a diplomatic approach to discussions will lead you successfully to your goals.

You are best equipped for those tasks if you have:

- A **degree in engineering, economics or law** or equivalent
- At **least 6 years of professional experience** in **project management**, including **4 years** of functional experience in **contract management**
