

Driving decarbonization and digitalization. Together.

Internship: Assistant (f/m/div)

Job description

You love technology, a dynamic environment and want to be part of state-of-the-art developments? The Frontend cluster is responsible for the planning, quality and productivity of its semiconductor manufacturing and drives related process and manufacturing innovations. This internship is perfectly compatible with your study program. Do you bring a basic commercial training as well as knowledge in materials logistics? Then we should get to know each other! Join our team in Villach in the area of maintenance and boost your career.

In your new role you will:

- Manage **ordering activities** for **spare parts**
- Perform **OneSAP** management and provide support with **basic data maintenance** for technical employees in the area of **maintenance - ion implantation**
- Check **incoming goods**
- Support the **material** and **spare parts logistics**
- Collaborate on **projects**

Further Information

Type of employment: Temporary / Part-time (flexible working hours from Monday to Friday between 6 a.m. and 7 p.m.)

Duration: min. 12 months

Profile

You successfully meet the requirements, if you are a motivated and committed student and are best equipped for this task if you additionally offer:

- Basic **commercial training**
- Knowledge of **materials logistics**
- Experience in working with **Microsoft Office**
- The ability to be a good **team player** and to work in an **international team**
- Good communication skills in **English** and **German**
- An open **mindset** with a focus on **quality**
- Basic **technical understanding** as a great advantage

This position is subject to the collective agreement for workers and employees in the electrical and electronics industry (full-time), employment group B for bachelor students, employment group D for master students (<https://www.feei.at/wp-content/uploads/2023/05/minimum-salaries-white-collar-workers-2024.pdf>).

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

The **Frontend (FE)** cluster offers a broad range of manufacturing competence specialized in high-quality logic products. The portfolio represents Power, Bipolar, Sensor, Passive and Diode technologies as well as CMOS, RF-CMOS and embedded flash technologies. The manufacturing sites in Dresden, Kulim, Regensburg and Villach are committed to Operational Excellence with strong customer focus.
