

Driving decarbonization and digitalization. Together.

Working Student: Backend Board Project Office (f/m /div)

Job description

Looking for gaining hands-on experience in project management, communication, and organizational skills? Join us as a working student in the Backend Board Project Office at Infineon. In this role, you'll be an integral part of the Project Office, supporting various communication related activities including writing articles, creating videos and newsletters to share important developments and messages from Backend management with the whole Backend organization in an intuitive understandable way. In addition, you will have the chance to bring your project management skills into practice such as preparing assessments, planning of activities, and driving successful execution despite changing parameters. Sounds interesting? Then, apply now to be part of our collaborative team and driving impactful projects forward in our dynamic environment.

- **Inform your colleagues:** You will support various **communication activities** including
 - writing articles, creating videos and newsletters to share important developments and messages from Backend management with the whole Backend organization in an intuitive understandable way,
 - creating and maintaining intranet sites and databases
- **Experience project management:** You will practice various aspects of project management such as preparing assessments, planning of activities, and driving successful execution despite changing parameters
- **Organizational talent:** You will support the planning and organization of physical /virtual management workshops and events enabling smooth event conduction and effective discussions
- **Teamwork is dreamwork:** You will interact and collaborate with several other departments and functions

Profile

- **Study field:** You are currently studying business administration, industrial engineering or similar
- **Experience:** You have already gained initial experience in the area of project management and/or change management
- **Interests:** You are highly motivated to analyze complex business topics in a structured way with a high degree of self-initiative

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

You can find the headquarters of Infineon Technologies AG in Neubiberg

In Campeon, besides working towards our goal of being one of the most sustainable companies in the world, we are improving everyone's future by making the technology of tomorrow.

At Infineon, we take work-life balance very seriously. You will be a step away from the center of Munich with its infinite possibilities. Whether you're a history buff, a foodie, or simply looking for relaxation in the city. Munich has something for everyone. Come and discover the warmth and charm of this city, where Bavarian hospitality meets modern urban living.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
