

Driving decarbonization and digitalization. Together.

Staff Specialist Product Marketing

Job description

In your new role you will:

- **Consolidate and oversee volume forecast** for mid and long term capacity planning, and interact with people from operations, sales, marketing, etc. to optimize forecast visibility and accuracy
- **Analyze the product portfolio** through the business cycle and optimize the mid term volume forecast to the phase of the business cycle
- **Be the primary point of contact to supply chain planning, operation management** for active portfolio management and related business processes
- **Actively manage the Master data** for discrete power MOSFET products
- **Actively track and manage the product life-cycle** of a power MOSFET product portfolio (change of product status, discontinuation, introduction of successor products, etc.)
- **Support Product Marketing** with business analyses for business management tracking & reporting
- **Assist in assessing products for export control requirements**

Profile

You are best equipped for this task if you have:

- **A university degree in business administration, applied science or similar (or several years relevant work experience)**
- **1-3 years of work experience**, ideally in business planning, business analysis or project management
- **Excellent MS Office skills**
- **Fluent English** (German is a plus)
- **Ability to multi-task** in a fast-paced environment and work independently or in a team environment as needed

Why Us

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.

Driving decarbonization and digitalization. Together.

Infineon Technologies Americas Corp., is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws.

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your on-boarding documents.

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the internet or electronically. Please kindly refrain from disclosing your PII electronically during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.

Wage Range that the Company expects to pay for a qualified candidate:

Minimum of \$100,130 salary per year

Maximum of \$135,470 salary per year
