

Driving decarbonization and digitalization. Together.

Working Student: Data Governance and Data Analyst (f/m/div)

Job description

As a global semiconductor leader in power systems and IoT, we enable game-changing solutions for green and efficient energy, clean and safe mobility, as well as smart and secure IoT. That's why you probably use our products every day: smartphone, charger, electric toothbrush, coffee machine, refrigerator, remote control and much more. We are looking forward to your application!

- **Keep the overview:** You assist in the development and implementation of data analytics solutions using various tools and technologies (e.g., Python, R, Tableau, Power BI, Excel)
- **Data is everything:** You assist in data collection, processing and analyzing
- **Reliable work:** You assist in developing and maintaining data visualizations, reports and dashboards
- **Take responsibility:** You ensure data quality by performing data validation, data cleansing and data transformation
- **Expand your horizons:** You assist in the development and maintenance of data governance policies and procedures

Profile

- **Study field:** You are currently enrolled in a degree program in Computer Science, Information Systems, Data Science, or a related field
- **Skills:** You are experienced in programming languages like Python, R and SQL
- **Experience:** You are experienced with data visualization tools (e.g., Tableau, Power BI) and data analytics platforms (e.g., Excel). You have knowledge of data governance principles and practices
- **Language skills:** You have fluent English skills, both written and spoken

Please attach the following documents to your application:

- CV in English
- Certificate of enrollment at university
- Latest grades transcript (not older than 6 months)
- High school report

Recruiter

- **Working part-time:** The focus is on studies. Therefore, working student is possible during the lecture period with a maximum of 20 hours per week.
- **Proper students (according to the German law) are welcome:** You must be enrolled, and the examination results or modules of your studies must not have been completed yet, so that you can still work in our team for at least 6 months. You must also not be in a semester of leave.
- **You should live close to the site:** It is important for us to work with you on site and to integrate you into the team. You should therefore be able to come to the site regularly.

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
