

Driving decarbonization and digitalization. Together.

TechnicianRPT

Job description

As a laboratory technician, I can independently complete a series of tasks in the laboratory process.

In your new role you will:

1. As a laboratory technician, I can independently complete a series of tasks in the laboratory process.
2. Replace laboratory test fixtures to ensure effective testing.
3. Perform preventive maintenance, setup, repair, troubleshooting and equipment support for the corresponding functional area.
4. Support production and execute SMT packaging.
5. Maximize the availability and output of equipment and tools.
6. Support consumable and spare parts management.

Profile

You are best equipped for this task if you have:

1. College degree or above, major in electronics, electrical or related.
2. At least one year of equipment maintenance experience in semiconductor industry.
3. Experience in laboratory equipment maintenance is preferred.
4. Focus on skills gained from basic training or experience.

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
