

Senior Director Operational Procurement Processes (f/m/div)*

Job description

The Senior Director Operational Procurement Processes will report to the Head of Procurement Center of Excellence and will globally work with all Procurement central & local managers as well as interdepartmentally with key stakeholders like Finance and IT. This new role brings together the critical strategic and operational Procure-to-Pay and Shared Service Center activities under one leader with the intention of further increasing the strategic and operational effectiveness, efficiency and speed. Take the chance and shape the future! This position of a Senior Director Operational Procurement Processes is a position of trust at Infineon Technologies AG. For this reason, Infineon is required under the German Corporate Control and Transparency Act (KonTraG) to identify and minimize potential human risks to avert damage to the company. To meet this legal obligation, Infineon conducts a check on the correctness of information provided by individuals in their employment application, including employment history and documents submitted, possibly with the assistance of a third party. A further security check is also carried out that includes a credit check, company investments, and potential involvement in criminal acts. The data and findings acquired for and during these checks will be used and stored exclusively to confirm your details. In the event of non-recruitment, the data collected will be deleted six months after receipt of the rejection notice. The position can be filled in either Munich, Porto or Melaka.

Your new responsibilities include:

- **Lead the global Operational Procurement Shared Service Center**, be responsible for the organization (~90 employees) and performance of all operational Procurement activities performed by several centers in Porto, Wuxi, Malacca, Penang (Ordering services, Master data governance, price and contract maintenance, performance reporting etc.)
- **Build, lead, foster, motivate, facilitate and engage** teams and team leads
- **Global governance and responsibility of the process design and improvements** for indirect & direct Procurement process landscape with focus on the Procure-to-Pay Process and related process steps incl. KPI achievements
- Interface management to **internal and external stakeholders**
- **Optimize projects for processes, procedures and organization** to capture rationalization potentials, optimize productivity and meet compliance requirements
- **Global audit assurance** including preparation, definition and follow up on measures

Profile

You are eager to lead, build up and foster teams and motivate your team and others to achieve top results and performances. Furthermore, you are highly structured, enjoy developing concepts with global impact and want to bring them to life. In addition to
