

Sales Operations Specialist

Job description

As a Sales Operations Specialist, you will be responsible for managing New Product Introduction (NPI) projects and special projects for the assigned customer account. Apply today to support our industry leading products with a global company that makes life easier, safer and greener!

In your new role you will:

- **Manage NPI (New Product Introduction) projects**
 - Track supply confirmations and alignment to pre-production builds to ensure an easy transition to high volume supply
 - Forecast alignment and backlog/order tracking with Sales counter parts
- **Manage Special Customer Projects**
 - Aggregate customer requirements in support of sales account team
 - Drive internal reporting requirements

Profile

Your ability to **demonstrate task prioritization and manage multiple projects simultaneously** are your keys to success. Additionally, you give great attention to detail and are an effective multi-tasker.

You are best equipped for this task if you have:

- Minimum of 3-5 years of professional experience
- Advanced Excel and PowerPoint skills required
- Bachelor's degree preferred
- Project Management software experience preferred

Infineon **Power & Sensor Systems (PSS)** semiconductors play a vital role in enabling intelligent power management, smart sensitivity as well as fast and reliable data processing in an increasingly digitalized world.

Our leading-edge power devices make chargers, adapters, power tools and lighting systems smarter, smaller, lighter and more energy-efficient. Our trusted sensors increase the context sensitivity of “things” and systems such as HMI, and our RF chips power fast and reliable data communication.

– We drive leading-edge power management, sensing and data transfer capabilities –
