

Manager - Environment, Safety & Health

Job description

Are passionate about Environmental, Safety & Health (ESH) topics? Do you have in-depth understanding and exposure within the Semiconductor industry? We are looking for someone like you to ensure our ESH systems, procedures, operations & controls measures, training and documentation are in compliance with all legal requirements and obligations. Join us now so that you can also be part of the team to drive for continuous improvements!

In your new role you will:

- **Ensure the procurement of products, tools and services are in compliance** with well-established protocols and functional safety related systems
- **Seek to constantly improve safety standards** through behavioural basics, data driven functional safety and embracing leading edge practices and tools
- **Chair and lead** our safety committee and sub-committees
- Be part of an active member in **collaborations with other sites and segments to implement best practices**
- **Continuously improve our safety performance** that is synonymous to that of a high performance company
- **Lead and drive corporate social responsibility** and sustainability efforts
- **Set and review KPIs** with teams and management, charting out specific actions and focus attention areas as needed

Profile

With your independent working style, you ensure that deliverables are complete in high quality and remain aware of the big picture even in complex situations. You work conscientiously on making things better, faster, and more efficient and keep up high quality standards. You demonstrate strong communication skills and know how to establish lasting relationships with stakeholders.

You are best equipped for this task if you have:

- **Around 10 years'** experience in **Occupational Safety & Health and Environment**
- **At least 3 years'** experience in **Semiconductor manufacturing Industry** will be preferred
- Knowledge and experience in **ISO14001, OHSAS 18001, IAFT 16949, ISO 9001, ISO 50001, local occupational Safety & Health and Environment legal requirements**
- **Good interpersonal skills** and able to communicate with internal and external stakeholders
