

## Financial Controller (f/m/div)\*

### Job description

You like to contribute to Infineon's business success with your strategic and business-oriented approach? Your goal is not only to understand the numbers, but also the underlying relationships? Then you have found the right position! As Financial Controller for the Division Automotive (ATV) you will get deep insights in the automotive business of Infineon. As a member of the central financial controlling team at ATV you work everyday on improving our efficiency and effectiveness of the ATV finance community.

In your new role you will:

- Take an active part in the **preparation of ATV internal and external financial reporting** (income statement, quarterly forecast and outlook, cost center, employees, investment, assets, financial budget) and secure data consistency and completeness
- Support **analysis and reporting** of business-relevant financial data of the ATV Division to provide transparent information for management decisions
- Ensure quality and integrity of financial KPIs
- **Support setting finance related standards** for all ATV Business Lines , **developing financial processes** and **implementing those processes**
- **Assist in fostering the use of a new SAP landscape** within ATV Finance, that has been introduced through an Infineon-wide SAP project
- **Prepare reliable documents** for internal and external auditors
- Help in the **preparation of ad-hoc analyses** for ATV top management

### Profile

You enjoy working with numbers and you know that reliable data is key for taking sound decisions. Your open and clear communication helps you to collaborate with various stakeholders from peers to top management level. You always listen actively to the customer and consider his point of view, thoughts, and ideas.

You are best equipped for this task if you have:

- A **degree** either in **Business Administration, Economics, Business Informatics or Industrial Engineering**
- The **interest in finance, controlling and information technologies in a high-tech environment**. First insights gained as an intern or as a working student are a plus
- The ability to **break-down complex financial topics** and to **communicate them in a tangible way** to various stakeholders – from a management level to colleagues without a financial background
