

Quality Specialist (f/m/div)*

Job description

Do you consider yourself a natural problem-solver, always striving for high quality and efficiency? Do you thrive in a team environment by contributing with your ideas and solutions? Are you ready to face the challenge of working in a dynamic multicultural environment? Then this is the perfect opportunity for you! Join us as a Quality Specialist in Cegléd and become part of a global quality management team striving for outstanding results.

As a Quality Specialist, you are continuously looking for high quality in your contribution to team work. You will be a key figure in the measurement activity, planning and performing the measurements as well as assessing the outcomes.

In your new role you will:

- **Execute measurements and evaluate the results;**
- **Program measurement machines;**
- Develop **measurement plans** (feasibility studies, measurement reliability...);
- Take in **measurement requests** and **calculate measurement time;**
- Control **measurements of PPAP;**
- **Optimize the available measurement programs;**
- Support **different projects** (8D; 6 Sigma, Clear Spec; FAR).

Profile

Although you are an analytical person, you have a teamwork spirit and excellent communication skills that allow you to be clear in your explanations. You also have an impeccable understanding of technical processes and a will to do your best work always focusing on quality.

You are best equipped for this role if you have:

- **Secondary Education** or relevant course with focus on quality measurements (e. g. technical high school);
- **1-3 years of experience in measurement activity;**
- Experience working with **3D optical measurement machines** (e.g. Tesa Visio 300 DCC, Mitutoyo and GOM Inspect);
- Experience in **machine programming;**
- Good command of **English;**
- A **quality improvement mindset;**
- A **cooperative attitude** and **team-work** spirit
