

Project Manager for Automotive Smart Power Switches (f/m/div)*

Job description

You are ready to manage complex, international projects and dive deeply into technical topics of integrated circuit product development and power semiconductors? Then we have got just the right position for you. Come join us as Project Manager in our Automotive Division focusing on the development of Smart Power Switches that make futures cars smarter, safer and cleaner.

In your new role you will:

- **Manage product development projects** in the field of smart-power and mixed-signal integrated circuits for automotive applications
- **Plan, organize and control your project with full responsibility for all operational decisions** to achieve project targets
- **Manage and control the entire project life-cycle and ensure hand-over to sustaining function** as main contact person for all questions regarding the project
- **Align with internal and external stakeholders**, e.g. by conducting project reviews and milestone reports
- **Form and lead the project team** and assign responsibilities within the project
- **Integrate and balance skills and development areas** of team members
- **Conduct a forward-looking risk management**
- **Identify possible mitigation measures and/or backup scenarios** in close cooperation with your stakeholders

Profile

As a true **team player**, you set the direction in your field of expertise and cooperate across boundaries by recognizing and using different areas of expertise and skills of the team members. You think **analytically** and **result-oriented**, have a **structured** and **self-driven working style**, even when under pressure.

You are best equipped for this task if you have:

- A university **degree (Master) in Electrical Engineering** or similar technical background
- At least **6 years of practical engineering experience, thereof 4 years in leading projects** (preferably in the semiconductor industry)
- Experience in **project management methods and processes**, provided in project frameworks like **IPMA C** or **PMP**
- **Strong interpersonal and communication skills** which enable you to motivate yourself and your team
- **Passion for innovation and quality** is the foundation to drive your projects to a sustainable business success
