

## Senior Project Manager

### Job description

As a Project Manager, you will utilize your skills to build IoT & Automotive products. You will be part of Infineon's Internet of Things, Compute, and Wireless (ICW) business unit, focused on IoT silicon IP. If you thrive in matrix environments, enjoy problem-solving, and create things with the latest IoT technology.

#### In your new role, you will:

- Lead a cross-functional team to create and deliver **IoT or Automotive silicon IP**
- Work with stakeholders to define project requirements, create project schedules and resource plans
- Conduct forward-looking risk management assessments and identify risk mitigation strategies
- Lead and facilitate project management and process improvement best practices
- Report regularly to department and division head
- Communicate proactively with different internal and external project partners

#LI-MH1

### Profile

#### You are best equipped for this task if you have:

- At least 10 years of experience, with 3+ years in the **semiconductor industry and project management**
- Project Management Professional (PMP) certification is a plus
- Technical background in the **Internet of Things or semiconductors**
- Experience with the cross-functional teams
- Outstanding problem-solving skills
- Excellent communication skills
- Agile mindset and Out-of-the-box thinking capability

### Why Us

Part of your life. Part of tomorrow.

We make life easier, safer, and greener – with technology that achieves more, consumes less, and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility, and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

***The Connected Secure Systems (CSS)** segment offers comprehensive systems for a secure, networked world with a portfolio built around reliable, trendsetting microcontrollers as well as wireless connectivity and security solutions. Over the past decades, CSS has developed microcontroller, Wi-Fi, Bluetooth, and combined connectivity solutions (known as connectivity combos) and hardware-based security technologies. The products are used in a broad range of applications: from consumer electronics, IoT, and home appliances to IT equipment, cloud security, and networked cars all the way to credit and debit cards, electronic passports, and IDs. With its leading technologies in the areas of computing, connectivity, and security, CSS makes a decisive contribution to protecting today's and tomorrow's networked systems.*

*Cypress Semiconductor Corporation is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws. Applicants with questions about access or requiring a reasonable accommodation for any part of the application or hiring process should contact the Talent Network by phone at (408) 503-2194.*

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your onboarding documents .

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.

**IMPORTANT NOTICE:**

**Infineon is requiring all new U.S. employees and contractors to be fully vaccinated against COVID-19. Full vaccination is defined as two weeks after both doses of a two-dose vaccine or two weeks since a single-dose vaccine has been administered. Anyone unable to be vaccinated, either because of a sincerely held religious belief or a medical condition or disability that prevents them from being vaccinated, can request a reasonable accommodation.**

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the internet or electronically. Please kindly refrain from disclosing your PII electronically during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.
