

Specialist Logistic Supply Chain and Ramp-Up Management (f/m/div)*

Job description

Do you enjoy working in an international environment and like to interact with different stakeholders internally and externally? Handling different topics and priorities at the same time is your daily business, you love the variety of tasks and want to be part of a new Team for special topics? Then you should be part of our success story as a Specialist in Logistic Supply Chain and Ramp-Up Management!

In your new role you will:

- **Optimize Demand and Supply Plans** of a specific product portfolio
- **Manage tight supply and customer allocation** in alignment with Product Marketing and other Stakeholders like Customer Logistic Management and Sales
- **Plan and maintain inventory targets** based on stock range objectives agreed within the organization
- **Ensure the production and delivery ability** of your product portfolio in collaboration with the global Frontend- /Backend manufacturing sites
- **Develop ramp-up scenarios** and consider them carefully in the planning process as well monitor their execution
- **Define Supply Chain related activities** as part of the Ramp-Up project requirements and act on behalf of Supply Chain in product change projects
- Contribute to reach production milestones in a timely manner and **ensure Infineon's ability to deliver to our customers**
- Work out solutions with interdisciplinary teams
- **Develop and present** decision templates and reports for management reviews

Profile

Recognizing potential obstacles in time and uses them as good opportunity for further improvement is part of your daily doing. You feel responsible for and contributes to the team and department success. Cooperating across boundaries and appreciating the contributions of other people reflects your personality.

You are best equipped for those tasks if you have:

- **A degree in Engineering or Business Administration** with the focus on Supply Chain or Production Planning
- **At least 3-5 years of working experience** in Supply Chain related jobs
- **Experience in project management** is an advantage
