

Internship: Embedded System Programmer

Job description

We are looking for motivated and committed students (f/m/div)* who are willing to learn new things and work in a challenging environment. An exciting working environment characterises this internship as well as an attractive salary. Apply now for this internship in Villach and support our team.

We are looking for motivated students with strong technical background (f/m/div*) to support our MC val team in embedded system tasks. The job requires 32-bit architecture microcontrollers knowledge along with real time operation (RTOS) experience.

Further Information

Start: July 2021

Type of employment: Temporary / Part-time (flexible working hours from Monday to Friday between 6 a.m. and 7 p.m.)

Duration: min. 6 months

Profile

You successfully meet the requirements if you are a motivated and committed student from the field of **electrical engineering**, or similar. You are best equipped for this task if you additionally offer:

- Solid **C-programming skills**
- Familiar with **32-bit microcontrollers**: architecture, memory, peripherals
- **RTOS** basic knowledge
- **English** skills

This position is subject to the collective agreement for workers and employees in the electrical and electronics industry (full-time), employment group B for bachelor students, employment group D for master students (<https://www.feei.at/leistungen/informations-service/mindestlohne-und-gehalter-2020>).

Please attach the following documents (german or english) to your application:

- Motivation letter
- CV
- Certificate of matriculation at a university
- Transcript of records
- Highest completed educational certificate (Matura certificate for Bachelor students, Bachelor certificate for Master students)
