

Assistant Engineer for Fab Facility Management at Cheonan

Job description

Infineon Power Semitech is looking forward to working with a passionate Assistant Engineer for the facility management team at Cheonan site.

In your new role you will:

- Maintenance for utility machine & electric facilities (Air compressor, Air dryer, Vacuum pump, Gas mixer, AHU, Transformer, Distribution panel)
- High pressure gas facilities & building maintenance
- Monitoring system operation
- Supervisor for outsourcing

Profile

You are best equipped for this task if you have:

- Associate Degree, Diploma or above
- 2~5 years of experience in clean room control and related utility facilities maintenance (semiconductor industry experience preferred)
- Have a license related to high-pressure gas or electricity, or completed training course completed by KGS (Korea Gas Safety Corporation)
- Able to understand and edit drawing
